Dear Valued Customer,

We would like to congratulate you on your purchase of a Lifetime© Outdoor Storage Shed! We are confident that you have made the perfect choice and you will be very pleased with your new storage solution.

Lifetime© Outdoor Storage is part of the family of products created and manufactured by Lifetime® Products, Inc. Like all of our products, you can be assured that the quality of your Lifetime Outdoor Storage Shed is the best in the world! And, we back that quality up by offering the best warranty in the business—A 10-year warranty that fully covers the Shed!

All of our Sheds are built with the highest-quality steel and high-density polyethylene (HDPE) parts. The design and construction of our steel-reinforced double-Wall Panels is second to none. All of our exposed steel parts and gables are powder coated and we use high-density polyethylene plastic. What makes polyethylene so special? It has superior strength and durability, and, it won’t crack or degrade outdoors.

So now that you know the quality you are getting in a Lifetime Outdoor Storage Shed, please take the time to READ THIS INSTRUCTION MANUAL!

We have taken great care in providing the best possible form of instructions to help you put your new Outdoor Storage Shed together. Before you get started, PLEASE read the following preparation tips to help you get started!

We can assure you, your construction experience will be a lot more enjoyable if you do!

PREPARATION TIPS:

- The first step is simple... RELAX! You have made a great purchase, but Rome was not built in a day. Plan to spend a good part of your weekend putting together your fine Outdoor Storage Shed. Our philosophy is, if it comes together quickly and easily, it surely will come apart quickly and easily! Your Lifetime© Outdoor Storage Shed will surely last a long, long time, if you are patient, and take all the time necessary to put it together as we have instructed.

- Grab a friend to join in on the fun! This is not a one-person endeavor. We have found that not only will things go smoother if you have two or more people participating in the construction of the Shed, but it will go quicker as well. So, the more the merrier!

- Make sure you have all the tools necessary for constructing your new Shed. There is a “Tools Required For This Assembly” list on page five of this Owner’s Manual.

- The plastic pieces of your Shed may become damaged by over tightening the screws. To avoid this damage, we strongly recommend the use of a low-powered power screwdriver or a drill that has an adjustable clutch that is set on a low-torque setting. If neither is available, use a hand screwdriver. If a hand screwdriver is all you have, take several breaks... your wrist will need it!

- You will also need two small ladders (when it comes time to do the roof!).
IMPORTANT! PLEASE READ BEFORE BEGINNING ASSEMBLY

• Before beginning assembly, remove the Parts List from the center of this Owner’s Manual and take an inventory of the parts included with your Outdoor Storage Shed. Also, read through the entire instruction manual. It’s always a great practice to get a feel for the flow of the process and to familiarize yourself with the parts involved. But, try not to get ahead of yourself and start the process out of order.

• FOLLOW THE INSTRUCTIONS IN ORDER! Everything goes together in a certain order, and we have learned what that correct order should be. In our state-of-the-art research and testing facility, we have painstakingly created these instructions. The order of construction is there for a reason, and some parts simply will not fit if built out of order. Just follow along with the order in the instructions and everything will fit together and things will go very smooth.

• YOUR SHED MUST BE BUILT ON A LEVEL SURFACE! If the spot you have chosen to place your wonderful new Outdoor Storage Shed is not level, the Shed will not assemble correctly! We recommend a concrete patio, a wood platform or creating a pad with pea gravel. Your Shed is meant to last a lifetime, so provide the proper foundation for it before you start to build.

• Before you build it, make sure you are allowed to build it! Consult all building codes, as well as city and county ordinances, to ensure that you do not require a building permit to construct your Outdoor Storage Shed. Proper building permit documentation may be required in your neighborhood, and it would be quite unfortunate to learn this after your Outdoor Storage Shed is already built!

Now that you’re ready to begin the construction of your wonderful new Outdoor Storage Shed, step back, take a deep breath, get yourself a large cold beverage and enjoy yourself. We guarantee that after spending the right amount of time in building your Shed, you will be able to enjoy it for years to come.

Thanks for choosing Lifetime©, and have fun!

ABOUT LIFETIME PRODUCTS, INC.

Lifetime Products, Inc., has applied innovation and cutting-edge technology in plastics and metals to create a family of affordable lifestyle products that feature superior strength and durability. The world’s leading manufacturer of folding tables and chairs, Lifetime was founded in 1986 as the maker of portable basketball systems that revolutionized the industry with patented technology. With diverse offerings such as outdoor storage sheds and steel utility trailers, Lifetime continues to develop innovative products that outfit the way you live.

Lifetime makes the things you need for the lifestyle you want. By innovating products in and around the home, Lifetime simplifies your everyday life and enables you to get the most out of your free time.
At Lifetime, we are committed to providing innovative and quality products. While registering, you will have the opportunity to give us your feedback. Your input is valuable to us.

- You can also opt in to receive new product notifications or promotions.
- In the unlikely event of a product recall or safety modification, your registration provides the information we need to notify you directly.
- Registration is fast, easy, and completely voluntary.

**LIFETIME’S PROMISE TO YOU:**

Maintaining your privacy is our long-standing policy at Lifetime. And you can rest assured that Lifetime will not sell or provide your personal data to other third parties, or allow them to use your personal data for their own purposes.

We invite you to read our privacy policy at www.lifetime.com

**REGISTRATION**

**U.S. and Canada customers ONLY**

IF ASSISTANCE IS NEEDED, DO NOT CONTACT THE STORE!

CALL OUR CUSTOMER SERVICE DEPARTMENT at 1 (800) 225-3865

HOURS: 7:00 a.m. to 5:00 p.m. Monday through Friday (Mountain Standard Time)

**Call, or visit our Web site for Saturday hours**

**For customers outside the U.S. or Canada, please contact the store for assistance.**

**SAFETY INSTRUCTIONS**

FAILURE TO FOLLOW THESE WARNINGS MAY RESULT IN SERIOUS INJURY OR PROPERTY DAMAGE AND WILL VOID WARRANTY.

To ensure safety, do not attempt to assemble this product without following the instructions carefully. Check entire box and inside all packing material for parts and/or additional instruction material. Before beginning assembly, read the instructions and identify parts using the hardware identifier and parts list in this document. Proper and complete assembly, use and supervision are essential to reduce the risk of accident or injury.

- Do not use or store hot objects such as grills, blowtorches, welding equipment, etc. near the product.
- If using a ladder during assembly, use extreme caution.
- Two capable adults are required for assembly. (It is also recommended that a third adult function as an instruction reader.)

Most injuries are caused by misuse and/or not following instructions. Use caution when using this product.
BEFORE BEGINNING ASSEMBLY

Keep the hardware bags and their contents separate. If any parts are missing, call our Customer Service Department.

Read the “Congratulations” letter on page 2-3. Identify and inventory all parts and hardware using the parts and hardware lists and identifiers in this document.

*Two adults required to complete assembly*

Only adults should set up the product. Do not allow children in the set-up area until assembly is complete.

IF YOU ARE INSTALLING A NEW SHED

1. Check contents of boxes and compare to parts listed on the Parts List.
2. Follow instructions that came with your shed, but add extra floor panel, wall panels, Roof Cap and Skylight at appropriate points in the assembly.

IF YOU ARE EXTENDING AN EXISTING SHED

1. Remove any bolts or screws being used to anchor the shed to the ground.
2. Remove any objects from back shelves.
3. Remove any shelves, pegboard or pegboard strips, or other objects hanging on the last two Side Wall Panels on either side.
4. Check contents of boxes and compare to parts listed on the Parts List.
5. Follow the steps in this manual.
6. If you are extending an 8’ x 5’ shed you will need to modify the following instructions by not removing as many parts as shown in the illustrations.

TOOLS REQUIRED FOR THIS ASSEMBLY

*Phillips Screwdriver
*Electric Drill
7/16” Wrench
3/8” Wrench
Safety Glasses

(x1) (x1) (x2) (x1) (1 pair for each person)

*See “Screwdriver Notice” on page 7.*
Refer to the following areas throughout the instructions to assist in the assembly process:

This area is located at the top, left-hand corner of the page and indicates which tools and hardware are needed to complete the assembly steps on a page.

This area is located at the top, right-hand corner of the page and shows an image of the product with shaded parts indicating which section is being assembled.

This area is usually located in the bottom, left-hand corner of a step and indicates that special attention is needed to perform a particular part of a step.

These areas are usually located in the bottom, right-hand corner of a step and indicate that damage to the product or serious injury may occur if the caution or warning is not heeded.

Throughout the Parts & Hardware List, Part & Hardware Identifiers, and instructions are three-letter IDs. These IDs are below the images of the parts and hardware to help you locate and identify the parts and hardware during assembly. These IDs are not necessarily on the parts themselves.

ADZ (x10)
1/4" x 5/8" Pan-Head Screw
Level Surface Notice:
Surface must be leveled before installation. We recommend building a level work space with a concrete or patio style surface. If the surface is not properly leveled, the Outdoor Shed will not assemble correctly. Proper surface leveling will save you time in the long run, so please do not ignore this step.

Building Code Notice:
Consult all local building codes, as well as city and county ordinances, to ensure that the construction of the Outdoor Shed does not require a building permit. Proper building permit documentation may be required in your neighborhood, and it would be unfortunate to learn this after constructing the Shed.

Screwdriver Notice:
You may use a #2 Phillips head screwdriver bit and a power screwdriver or drill, instead of a hand screwdriver. However, be aware that the plastic pieces of your Shed can be damaged by overtightening of screws. To avoid damage we strongly recommend the use of a low-powered power screwdriver or a drill that has an adjustable clutch that is set on a low torque setting. If neither is available, use a hand screwdriver. In any case use caution to avoid overtightening the screws.

Floor Puncture Notice:
Sharp objects may damage your floor. If resting sharp, heavy objects on your Shed floor, place a block of wood between the sharp object and floor.

⚠️ CAUTION: ⚠️
If more than six (6) inches of snow accumulate on the roof of the shed, carefully remove the snow to avoid possible roof collapse. While standing on the ground, remove the snow from the roof with a broom or snow shovel. Do not stand on the roof to remove snow.

*Snow Load Kit available from Customer Service for high snow areas.*

### TRUSS ASSEMBLY HARDWARE [BGV]

Hardware shown at actual size (*unless indicated otherwise)

- **AAK** (x10)
  - 1/4” x 1 1/2” Hex Bolt

- **ADJ** (x10)
  - 1/4” Cap Nut

### WALL & ROOF INSTALLATION HARDWARE [BGT]

Hardware shown at actual size (*unless indicated otherwise)

- **AJA** (x4)*
  - Foam Cube

- **ADZ** (x60)
  - 1/4” x 5/8” Phillips Pan-Head Screw

- **ACJ** (x4)
  - #10 x 5/8” Phillips Pan-Head Screw

### HARDWARE IDENTIFIER

**Note:** Throughout the Parts & Hardware List, Part & Hardware Identifiers, and instructions are three-letter IDs. These IDs are below the images of the parts and hardware to help you locate and identify the parts and hardware during assembly. These IDs are not necessarily on the parts themselves.
Parts shown at 4% of actual size

- **AHD** (x2): Wall Panel
- **AGQ** (x2): Center Roof Panel

Parts shown at 8% of actual size

- **AGJ** (x2): Inner Floor Panel
- **AFP** (x2): Truss Support Strip
- **AFL** (x6): Roof Support Strip
- **AFH** (x2): Truss Gutter Channel
- **AFG** (x1): Truss Brace Channel
- **AFQ** (x2): Wall Support Channel
SITE SELECTION

This extension kit adds another 30" to the length of your shed. Before beginning expansion of your shed, be sure that your site can accommodate the new size. Add 30" to the length of your site’s wooden platform (shown) or cement platform; the width will remain the same. This may require the use of additional lumber or other materials.

Note: Floor studs are all 16” on center with one at 14” on center. Refer to Site Selection & Platform Instructions in Owner’s Manual.
**SAVE ALL HARDWARE FOR RE-ASSEMBLY!**

If your existing shed is anchored to the ground, remove all anchoring hardware before following these steps.

**SHED DISASSEMBLY**

2.1 Remove the four Center Roof Panels and two Center Roof Caps highlighted below.

2.2 Remove all Screws from the highlighted Wall Panel that connect it to adjoining Wall Panels and to the Wall Support.

Note: Your shed may be shorter than one shown above. Skip the very back Roof Panels (slightly more narrow than the middle Roof Panels) and then remove the next two Roof Panels from each side of the shed (along with the connected Roof Caps).
Tip the Wall Panel inward.

Note: You’re Shed may be a different length than the Shed shown, but the ideas are the same.

Use a long flat screwdriver to gently pry the bottom corner of the Wall Panel so that it has room to slide on the inside of adjacent Wall Panel. Slide the Wall Panel to the left, and then remove the Panel. Repeat steps 2.2 through 2.4 for the other side of the shed.

Note: To remove a Wall Panel, slide it to the left (when looking at it from inside the shed) until it lifts out.
Remove the Truss Assembly and set it aside for later.

**CAUTION**
As you remove the Wall Panels, have one person support the Truss assembly so that it does not fall over.

With at least one person on each side of the shed, tip the back section of the shed forward to about a 45° angle and slide the back section away from the shed.
PLASTIC PARTS REQUIRED

Part shown at 4% of actual size

AGI (x2)
Inner Floor Panel

TOOLS REQUIRED

Safety Glasses
FLOOR ASSEMBLY

3.1 Fit together the two Inner Floor Panels (AGJ).

3.2 Tip the Inner Floor Panel Assemblies forward at a 45° angle and connect them to the Inner Floor Panels on the main section of the shed.
With at least one person on each side of the shed, tip the back section of the shed forward at about a 45° angle and slide it forward to re-connect it to the rest of the shed.
### HARDWARE REQUIRED

Hardware shown at actual size

- **AAK** (x10)
  - 1/4" x 1 1/2" Hex Bolt

Hardware shown at 50% of actual size

- **AHT** (x2)
  - Floor Bracket
- **AIP** (x1)
  - Truss Gutter Connector

### METAL PARTS REQUIRED

Parts shown at 8% of actual size

- **AFH** (x2)
  - Truss Gutter Channel

### TOOLS REQUIRED

- 7/16” Wrench (x2)
- Safety Glasses
**TRUSS ASSEMBLY**

Fit two Truss Support Strips (AFP) together. Bolt Truss Support Strips, Truss Gutter Connector (AIP), and two Truss Gutter Channels (AFH) as shown using the required hardware.

**SEC 4.1**

Attach Truss Support Strips (AFP) to the center of a Truss Brace Channel (AFG) (Truss Support Strips fit inside the Truss Brace Channel). Attach each end of the Truss Brace Channel to the Truss Gutter Channels (AFH) using the required hardware. Tighten all hardware.

**WARNING**

Do not overtighten the Cap Nut. If the end of the Bolt breaks through the plastic cap, call our Customer Service Department. Exposed threads on the end of the Bolt may cause serious injuries.

**SEC 4.2**

Note: Only finger tighten hardware.
Attach Truss Assembly to two Wall Support Channels (AFQ) using 1/4” x 1 1/2” Hex Bolts (AAK) and 1/4” Cap Nuts (ADJ). Do not completely tighten the Cap Nut until after Truss is secured to the Wall.

Note: Only finger tighten hardware.

WARNING
Do not overtighten the Cap Nut.
Attach one Floor Bracket (AHT) to the bottom of each Wall/Shelf Support Channel using the required hardware. Tighten all hardware. Repeat this section for all Trusses. You need only do this step if you plan to anchor your Shed. See the “Anchoring the Shed” step at the end of this Owner’s Manual.
**HARDWARE REQUIRED**

Hardware shown at actual size (*unless otherwise indicated)*

- **AJA (x4)**
  Foam Cube

- **ADZ (x60)**
  1/4" x 5/8" Phillips Pan-Head Screw

- **AED (x4)**
  #10 x 1" Fender Washer

- **ACJ (x4)**
  #10 x 5/8" Phillips Pan-Head Screw

**METAL PARTS REQUIRED**

Part shown at 8% of actual size

- **AFL (x6)**
  Roof Support Strip

**PLASTIC PARTS REQUIRED**

Parts shown at 4% of actual size

- **AHD (x2)**
  Wall Panel

- **AGQ (x2)**
  Center Roof Panel

- **AFY (x1)**
  Center Roof Cap

**TOOLS REQUIRED**

- Phillips Screwdriver
- Safety Glasses
Insert a Wall Panel you removed previously as well as the Wall Panel (AHD) provided with this kit. You can insert the Panels in any of the available locations. Use the 1/4” x 5/8” Phillips Pan-Head Screws you removed previously as well as the 1/4” x 5/8” Phillips Pan-Head Screws (ADZ) provided with this kit to secure the Panels together. Repeat this step for the opposite side of the shed.
Connect the Truss Assembly you removed previously as well as the Truss Assembly you built using this kit to the center of each Wall Panel and Window Wall Panel with 1/4” x 5/8” Phillips Pan-Head Screws (ADZ).
Connect the Center Roof Panels, Roof Support Strips, and Center Roof Cap you removed previously as well as the Center Roof Panels (AGQ), Roof Support Strips (AFL), and Center Roof Cap (AFY) provided with this kit using 1/4” x 5/8” Phillips Pan-Head Screws (ADZ), #10 x 5/8” Phillips Pan-Head Screws (ACJ), and #10 x 1” Fender Washers (AED).

The hole at the end of the Roof Support is for manufacturing purposes only.

Note: Only use a hand screwdriver on this step.
Connect the Gutter Channels to the underside of the bottom of the Roof Panels using 1/4” x 5/8” Phillips Pan-Head Screws (ADZ) (Fig. 1). When finished, insert Foam Cubes (AJA) inside the Gutter Channels at the locations shown (Fig. 2). If you plan on anchoring your shed, do so as you did your existing shed or according to the instructions that came in your original owner’s manual. See the “Anchoring the Shed” step at the end of your Owner’s Manual.
10-YEAR LIMITED FACTORY WARRANTY

THE MANUFACTURER RESERVES THE RIGHT TO MAKE SUBSTITUTIONS TO WARRANTY CLAIMS IF PARTS ARE UNAVAILABLE OR OBSOLETE.

1. Lifetime outdoor sheds are warranted to the original purchaser to be free from defects in material or workmanship for a period of ten years from the date of original retail purchase. The word “defects” is defined as imperfections that impair the use of the product. Defects resulting from misuse, abuse or negligence will void this warranty. This warranty does not cover defects due to improper installation, alteration or accident. This warranty does not cover damage caused by vandalism, rusting, “acts of nature” or any other event beyond the control of the manufacturer.

2. This warranty is nontransferable and is expressly limited to the repair or replacement of defective product. If the product is defective within the terms of this warranty, Lifetime Products, Inc. will repair or replace defective parts at no cost to the purchaser. Shipping charges to and from the factory or distribution center are not covered and are the responsibility of the purchaser. Labor charges and related expenses for removal, installation or replacement of the shed or its components are not covered under this warranty.

3. This warranty does not cover scratching or scuffing of the product that may result from normal usage. In addition, defects resulting from intentional damage, negligence, unreasonable use or hanging from the truss will void this warranty.

4. Liability for incidental or consequential damages is excluded to the extent permitted by law. While every attempt is made to embody the highest degree of safety in all equipment, freedom from injury cannot be guaranteed. The user assumes all risk of injury resulting from the use of this product. All merchandise is sold on this condition, and no representative of the company may waive or change this policy.

5. This product is not intended for institutional or commercial use; Lifetime Products, Inc. does not assume any liability for such use. Institutional or commercial use will void the warranty.

6. This warranty is expressly in lieu of all other warranties, expressed or implied, including warranties of merchantability or fitness for use to extent permitted by Federal and state law. Neither Lifetime Products, Inc., nor any representative assumes any other liability in connection with this product. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state.

PLEASE INCLUDE YOUR DATED SALES RECEIPT AND PHOTOGRAPHS OF DAMAGED PARTS.
REPORT PRODUCT DEFECTS IN WRITING TO:
Lifetime Products, Inc., PO Box 160010 Clearfield, UT 84016-0010
or call 1-800-225-3865 M-F 7 a.m. to 5 p.m. MST.
