

Mounting Instructions

Congratulations! You are the owner of America's Newest Vertical Gardening System. Grow annuals, succulents, herbs or veggies.

Expect to take under 30 minutes to plant and install. Enjoy!

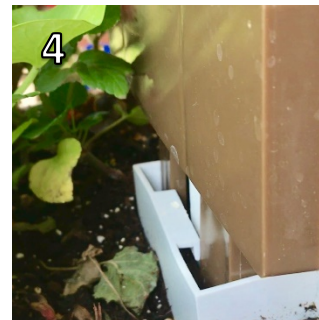

Secure the bracket by using the mounting tie and securing it to the gutter or post as indicated on the image.

Be sure to tighten as much as possible.

If you purchased two:

Install the second bracket on top of the first with the bottom legs going outside the top bracket as shown. Use two mounting ties to secure the bracket to the gutter or post.

Once mounted, double check to make sure all the mounting ties are.

Place the planted flower pot onto the bracket. Make sure the hook engages and connects to the bracket.

Do not let go of the pot until you confirm it is secured.

What's Included: 2 Mounting Brackets,
4 Mounting Ties and 2 flower pots
