### WK-ECO-WEL-948

Treats up to 3 Bathrooms

- ≈1,000,000 gallon capacity
- Service Flow: Up to 10 GPM
- Digital Automatic Backwash
- Tank Size: 9" x 48"

### WK-ECO-WEL-1252

Treats up to 5 Bathrooms

- Up to 2,000,000 gallon capacity
- Service Flow: Up to 20 GPM
- Digital Automatic Backwash
- Tank Size: 12" x 52"

## WELL WATER TREATMENT SYSTEM

**Iron and sulfur** are common nuisances in households using well water.

These elements can cause orange and yellow staining on appliances, bathroom fixtures, laundry and more. Sulfur can overwhelm your home with the smell of "rotten eggs"... yuck!

Our well water systems are environmentally friendly, maintenance free, require no chemicals, and are safe to use with septic systems. The Wayde King Eco Well System helps prevent hard water scale formation while removing or reducing contaminants such as iron, sulfur, and manganese. Management of scale buildup due to hard water will greatly extend the life of plumbing and appliances throughout the entire home, saving your family money on costly replacement and repairs. Most importantly, our systems will provide your family with consistent quality water for many years, and we guarantee it with our industry leading 10 year warranty!

### How Our Oxygen Well Systems Work

- STAGE 1** Water flows through the upper cavity, making contact with injected oxygen to oxidize iron and sulfur contamination. Oxygen maximizes system efficiency, and provides a longer and more efficient system service life. It is ALL natural, and requires NO maintenance.
- STAGE 2** Water then flows through a proprietary blend of catalytic media which removes the oxidized iron and sulfur from the water. This catalytic media also removes heavy metals, manganese, and certain radionuclides.
- STAGE 3** Water passes through a media bed of quartz gravel removing suspended solids, and sedimentation. This allows for maximum water distribution and efficiency.
- STAGE 4** Water runs through our proprietary multi-polarity magnetic ionizer. This process conditions the water without the need for salt. The ionizer is eco-friendly and requires NO maintenance. It is much better for the environment, and less intrusive to your wallet! See the inside of this brochure for more details.

**IMPORTANT NOTE:** *In order to ensure that we are able to deliver the correct equipment for your particular well, it is recommended that you supply a comprehensive well water analysis report. Please consult a Wayde King Water Filtration representative prior to purchase to ensure appropriate equipment is supplied.*

## GET SALT-FREE & WORRY FREE for \$1000's LESS

than Kinetico, LifeSource,  
or Culligan\*

*\*Realize even more savings when comparing high maintenance costs of competitor systems.*

**spring quality alkaline water from every faucet in your home**  
**drinking • showering • bathing • cleaning**

# MUNICIPAL WATER TREATMENT SYSTEM

## WHAT'S IN YOUR WATER?

- Chlorine
- Alum
- Lime
- Antibiotics
- Hormones
- Acid Rain
- Pesticides
- Heavy Metals
- Petro Chemicals
- Volatile Organic Compounds
- on and on and on...

← all of these and more  
may be in YOUR  
**DRINKING, SHOWER, &  
BATH WATER**

Every time you shower or bathe, many chemicals are absorbed through your skin and inhaled.

The Wayde King Whole-House Municipal Water Filtration & Conditioning system has the ability to remove hundreds of harmful chemicals and contaminants commonly found in municipal drinking water.

### These contaminants:

- are detrimental to your health
- deteriorate your plumbing
- destroy expensive fixtures
- ruin appliances
- adversely affect air quality in your home

Our systems **greatly reduce** or **eliminate** your water issues with a blend of:

- KDF-55
- Carbon
- Silicon Quartz
- Multi-polarity scale reducing ionizer

### WK-ECO-MUN-1252

Treats up to 5 Bathrooms

- ≈2,000,000 gallon capacity
- Service Flow: Up to 20 GPM
- Digital Automatic Backwash
- Tank Size: 12" x 52"

### WK-ECO-MUN-948

Treats up to 3 Bathrooms

- ≈1,000,000 gallon capacity
- Service Flow: Up to 10 GPM
- Digital Automatic Backwash
- Tank Size: 9" x 48"

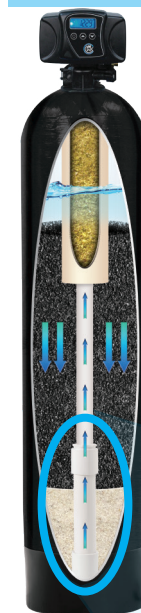

## Features and Benefits

- Healthy and delicious odor-free water for your entire home.
- Magnetic water conditioning ionizer inhibits scale formation in pipes and water heaters.
- Hassle-free system does not require any maintenance or periodic filter changes.
- Protects your family from contaminants that are absorbed into the skin while showering, bathing and brushing your teeth.
- Removes and reduces chlorine, VOCs, THMs, pesticides, and pharmaceuticals.
- Provides an easier clean up of water spotting versus untreated water.
- Nice clean feeling on your skin while bathing and showering without the "slick" feeling from salt softened water.
- An environmentally safe alternative to salt based systems and safe to be used in areas which have banned the use of water softeners.

SAVINGS PER YEAR COMPARED TO OTHER SYSTEMS	
\$ 300+	Salt / Potassium
\$ 450	Wasted regeneration water from water softeners
\$ 300	Refrigerator or reverse osmosis filters
\$ 125	Water heater replacements due to rust from water softener brine water
\$ 400+	Bottled water
<b>\$ 1,575±</b>	<b>ESTIMATED TOTAL ANNUAL SAVINGS!</b>

**NO SALT - NO POTASSIUM - NO MAINTENANCE**  
**NO FILTERS TO CHANGE - NO HARD WATER SCALE**  
**HERE'S WHY:**

## MULTI-POLARITY MAGNETIC IONIZER

Converts the hard sticky Calcium Bicarbonate contained in municipal drinking water into Calcium Aragonite (a healthy water soluble form of calcium that will not stick to pipes or plumbing fixtures). The benefits will decrease utility bills, make household cleaning easier, and greatly extend the life of your appliances.

**NO SYNTHETIC MATERIAL:** Magnetic ionization DOES NOT use synthetic materials that can break down in the water. Other systems that use synthetic descaling media often require two or more tanks.

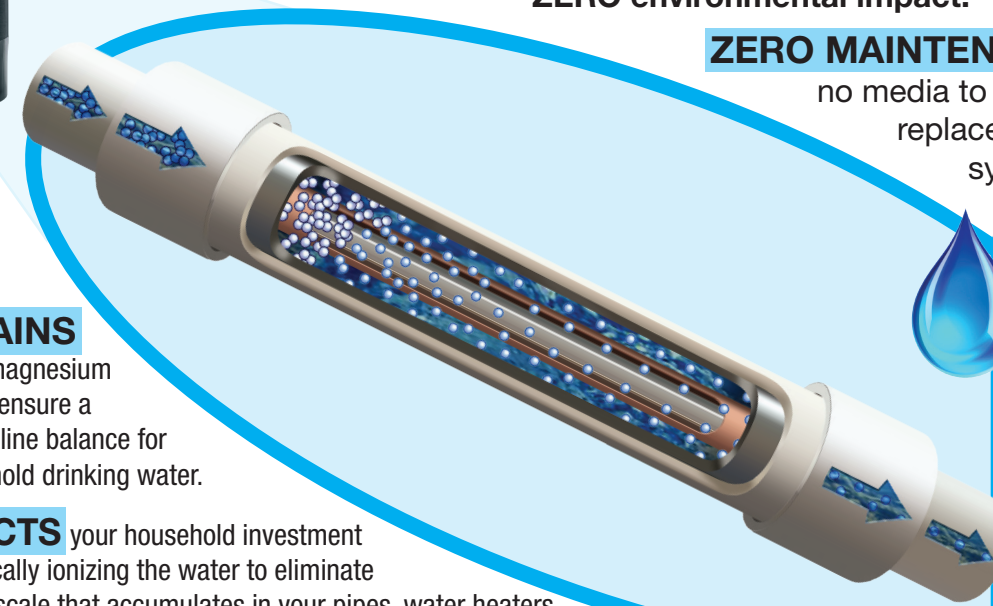

We keep it natural with just one tank.

**CONSUMES NO ENERGY, USES NO CHEMICALS:** Produces no harmful byproducts and has **ABSOLUTELY ZERO** environmental impact.

**ZERO MAINTENANCE:** There is no media to change, no filters to replace, for the life of the system.

**MAINTAINS** calcium & magnesium minerals to ensure a healthy alkaline balance for your household drinking water.

**PROTECTS** your household investment by magnetically ionizing the water to eliminate hard water scale that accumulates in your pipes, water heaters, appliances and plumbing fixtures.

Multi-polarity magnetic ionization magnetically charges the calcium molecules, causing them to repel instead of attract one another. This converts calcium bicarbonate to calcium aragonite, which prevents calcium deposits from accumulating and creating scale build-up in your plumbing system.
