Disclaimer

Our quality yellow cedar wood is kiln dried before they are made into furniture for outdoor use. Cedar's natural resistance to moisture, decay, and insect damage make it the ultimate choice for interior or exterior use.

We use polyurethane outdoor paint for our cedar wood furniture. However, like all paints, natural weathering and cracking is to be expected. These factors do not constitute a reason to reject the product because it does not affect the structural integrity of the furniture. When properly maintained and finished, cedar will supply you its splendor and beauty for many decades.

All products are subject to slight variations in color, shape or size due to manufacturing process.
