SAFETY RULES FOR FAN MODULE

⚠ WARNING:

To reduce the risk of injury, do not attempt to use this product until you have read thoroughly and understand completely this operator's manual and the operator's manual for the GD200 garage door opener. Ensure compatibility and fit before using this accessory. Do not use this accessory if a part is damaged or missing.

CALIFORNIA PROPOSITION 65

⚠ WARNING:

This product and substances that may become airborne from its use may contain chemicals, including lead, known to the State of California to cause cancer, birth defects, or other reproductive harm. **Wash hands after handling.**

- Do not allow children to operate this product. It is not a toy.
- Do not operate fans in explosive atmospheres, such as in the presence of flammable liquids, gases, or dust. Fans can create sparks which may ignite the dust or fumes.
- Do not overreach. Keep proper footing and balance at all times. Proper footing and balance enable better control of the fan in unexpected situations.
- Dress properly. Do not wear loose clothing or jewelry. Contain long hair. Keep your hair, clothing, and gloves away from moving parts. Loose clothes, jewelry, or long hair can be caught in moving parts.
- Do not use fan if the indoor keypad or smartphone app does not turn it on or off. A fan that cannot be controlled with the keypad or app is dangerous and must be repaired.
- Deactivate module ports and ensure the fan blades have stopped moving before making adjustments, cleaning, or changing modules. Such preventive safety measures reduce the risk of starting the fan accidentally.

- Keep the fan and its handle dry, clean and free from oil and grease. Always use a clean cloth when cleaning. Never use brake fluids, gasoline, petroleum-based products, or any strong solvents to clean your fan. Following this rule will reduce the risk of loss of control and deterioration of the enclosure plastic.

- Clean only with dry cloth.

- Do not operate near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.

- For general ventilating use only. Do not use to exhaust hazardous or explosive materials and vapors.

- Save these instructions. Refer to them frequently and use them to instruct others who may use this tool. If you loan someone this tool, loan them these instructions also to prevent misuse of the product and possible injury.

ASSEMBLY

PACKING LIST

Fan Module, Icon Label, and Operator's Manual.

⚠ WARNING:

Ensure modules are properly and securely connected to their port on the garage door opener. Failure to properly secure the module can cause it to fall and could result in serious personal injury or property damage.

⚠ WARNING:

Use extreme care if you need to stand on a ladder to install or adjust this module. Ensure someone is holding the ladder on the ground to keep it stable. Failure to safely use a ladder can cause a fall and result in death or serious personal injury.

INSTALLING/REMOVING FAN MODULE

See Figure 1.

- Assemble and mount the garage door opener as described in the garage door opener manual.

- Connect the garage door opener to an AC power supply.

- Select one of the DC module ports to power your fan module.

NOTICE:

To prevent interference with the rail assembly and trolley, the fan module should never be installed in module port #7.

- Hook the module to the top of the garage door opener and insert it into the module port. Ensure the bottom latch on the module is secured to the port on the garage door opener.

NOTE: DC modules will not receive power unless the module port has been activated. See **Activating/Deactivating DC Module Ports** later in this manual.

- Depress latches to release and remove the module.

ADJUSTING THE HEAD

See Figure 2.

⚠ CAUTION:

Be careful not to pinch your hand or fingers when adjusting fan position.

The fan mount can be rotated 170 degrees. To switch mount positions, adjust mount to desired position. The fan housing can also rotate as desired.

SYMBOLS

The following signal words and meanings are intended to explain the levels of risk associated with this product.

SYMBOL	SIGNAL	MEANING
⚠	DANGER:	Indicates an imminently hazardous situation, which, if not avoided, will result in death or serious injury.
⚠	WARNING:	Indicates a potentially hazardous situation, which, if not avoided, could result in death or serious injury.
⚠	CAUTION:	Indicates a potentially hazardous situation, which, if not avoided, may result in minor or moderate injury.
	NOTICE:	(Without Safety Alert Symbol) Indicates important information not related to an injury hazard, such as a situation that may result in property damage.

Some of the following symbols may be used on this product. Please study them and learn their meaning. Proper interpretation of these symbols will allow you to operate the product better and safer.

SYMBOL	NAME	DESIGNATION/EXPLANATION
⚠	Safety Alert	Indicates a potential personal injury hazard.
📖	Read Operator's Manual	To reduce the risk of injury, user must read and understand operator's manual before using this product.
⚡	Electrocution/Electric Shock	Do not touch electrical connections, do not install with wet hands, and keep module away from water to reduce the risk of electrocution or electric shock.
👱	Long Hair	Failure to keep long hair away from air inlet could result in personal injury.
🌀	Fan Blades	Contact with moving fan blades can cause serious personal injury.

OPERATION

⚠ WARNING:

Always deactivate module ports and ensure the fan blades have stopped moving when you are assembling parts, making adjustments, cleaning, or when not in use. Deactivating module ports will prevent accidental starting that could cause serious personal injury.

ACTIVATING/DEACTIVATING DC MODULE PORTS

See Figure 3.

- To activate a DC module port, press the number on the indoor keypad (not included) corresponding with the desired port. For example, to activate module port #2 press **NUMBER 2** on your keypad.

NOTE: Multiple ports can be activated at once.

- To deactivate a DC module port, press the number on the indoor keypad (not included) corresponding with the port.

STARTING/STOPPING THE FAN MODULE

See Figure 3.

- Install the fan module and activate the appropriate module port by pressing the corresponding number on the keypad.

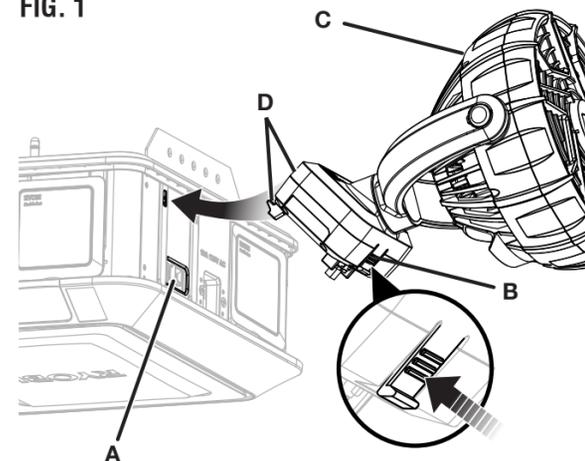

NOTE: For quick identification, the supplied icon label can be placed over the keypad number.

- After the module port is activated, the fan module can be controlled by pressing the keypad number.

- For high speed, press the number one time.
- For medium speed, press the number two times.
- For low speed, press the number three times.
- To stop the fan and deactivate the module port, press the number four times.

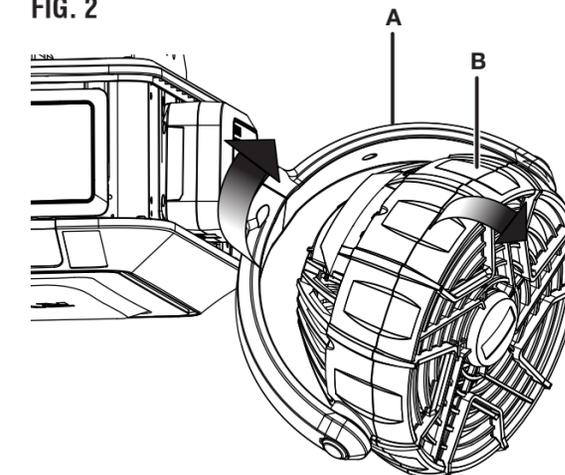

This product has a Three-Year Limited Warranty. For Warranty details go to www.ryobitools.com
