Mollywood

Designed in 2018

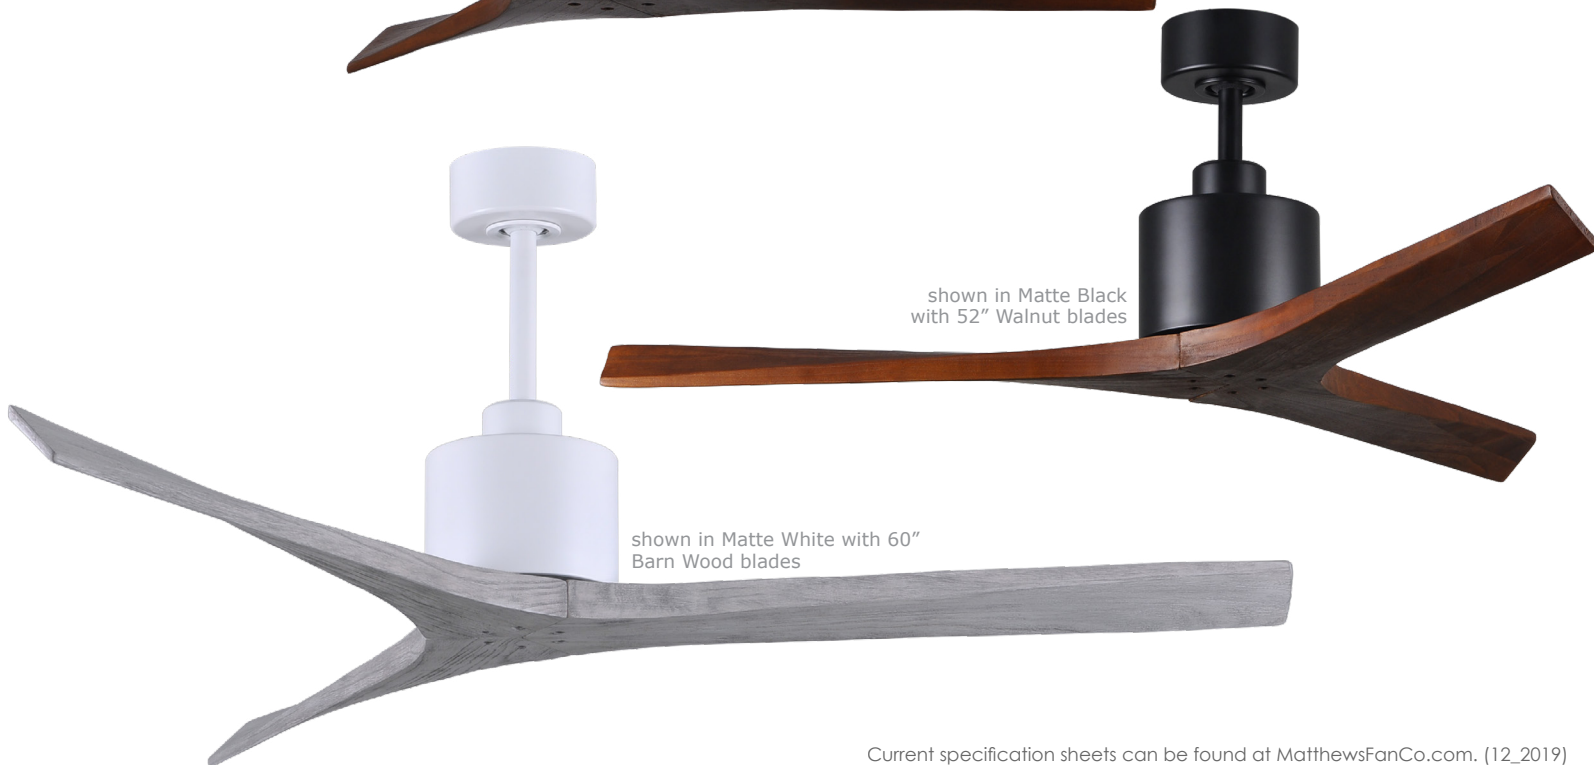

Blade Options

Designed by Chicago architect Stephen Katz in 2018, the Mollywood ceiling fan combines modern organic geometry with outstanding performance and function. The blade shape was developed using advanced computer software which allowed the design to achieve complex forms. The result is a clean, natural and contemporary look perfect for any room or décor. Available in matte black, matte white, or textured bronze finishes with either barn wood, matte black, matte white, or walnut tone solid wood blade options. Mollywood will complement a variety of design styles while also providing a fresh and unique, modern statement. Constructed of cast aluminum and heavy stamped steel, Mollywood carries a limited lifetime warranty.
