

Installation Instructions: RBSF- Shingle Roof

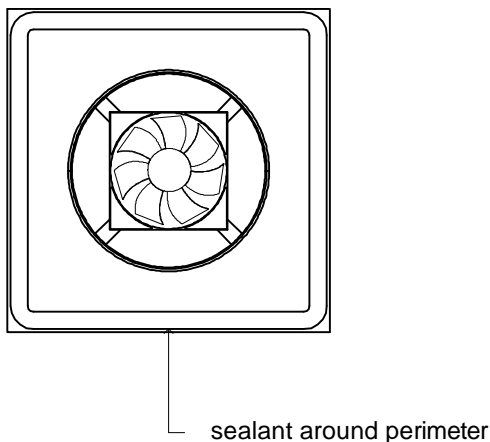

1. Included in box (1) Round back Solar Fan (RBSF)

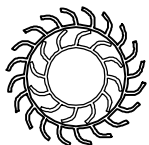

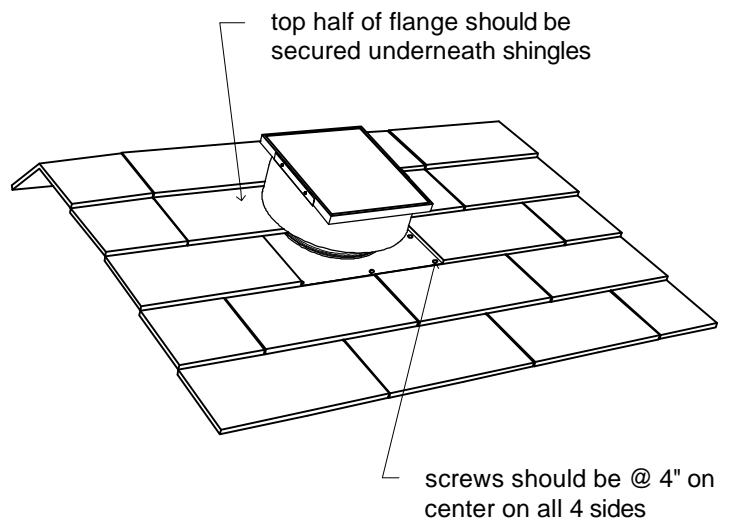

2. Before installing (RBSF), decide location to place opening. Mark and cut opening *(cut at least two rows down from top of shingle roof). Remove shingle

3. Apply roofing grade sealant, silicone or tar on the underside of flange.

4. Place RBSF above opening by sliding flange in place underneath shingle. Using a #8 or #10 screw(or nails) should be placed approximately a distance of 4 inch on center on all 4 sides.
