Work Table Assembly Instructions

HARDWARE LIST

Locate the 16 hex set screws, 1 hex wrench and 16 wood screws. Locate 4 table legs, 2 top braces, 1 table top, and 1 table base.

Hex Wrench

16 Hex Set Screws

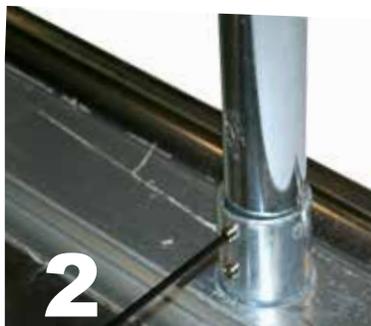

16 Wood Screws

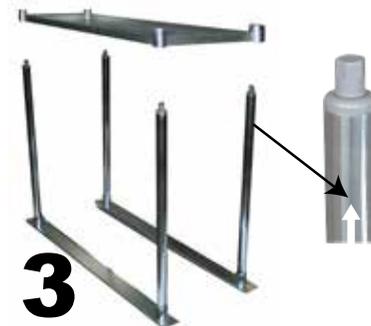

1

Line up the two top braces. Then insert each table leg into the top braces.

2

Each corner support requires two hex set screws. Loosely screw the hex set screws until next step.

3

Add table base, making sure to align the arrows on table legs.

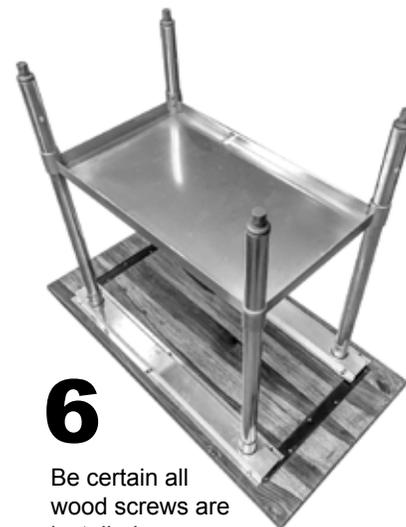

4

Tighten each hex set screw.

5

Remove the double sided tape and line up the top braces. Use the wood screws to secure the top braces to the table top.

6

Be certain all wood screws are installed.

7

Each corner support requires two hex set screws. Wait until the table is completely assembled before securely tightening each hex screw.

8

All four legs can be adjusted for surfaces that aren't completely level. Rotate the plastic foot pad to compensate for differences in floor surface.

9

Turn the table over AFTER securely tightening each hex set screw. Two people may be required to rotate the table.
