

Garage Door Insulation Kit

Experience Year-Round Garage Comfort

Owens Corning® Garage Door Insulation Kit provides unprotected metal garage doors a 2.25" inch thick barrier of insulation between the outside elements and the most common inside entry to homes.

Easy

- 8 single panels - designed to cover a single 9 foot door
- Unique fastening system
- Measure, mark, trim & install

Durable

- Washable white vinyl facing
- Flexible insulation panel material resists denting

Attractive

- White vinyl panels brighten garage, improving its appearance

Tested, Proven and ready to Perform

- 5 times better thermal performance as compared to an uninsulated metal garage door
- 2 times better at keeping the noise out as compared to an uninsulated door*
- R-8 rated insulation panels
- Flame Spread Index of 45 per ASTM E84
- Smoke Developed Index of 30 per ASTM E84

One kit contains:

- 8 insulation panels
- 17 Fasteners (2 per panel, plus a spare) & adhesive
- Gloves
- Requires tape measure, utility knife, straight edge and a marker
