

## C070PE

For Indoor/Outdoor Use

The C070PE is fully equipped a digital control panel, remote control and electronic features, including a unique ASPB function that automatically resumes operation after a power failure, using previous mode settings. It also includes an 'Auto-Close Shutter' which helps protect the inner cooler from dust and mosquito breeding, when the unit is not in use. This model is equipped with two powerful air blowers for ultra-high air throw, allowing air to travel faster and further than fan based coolers. The massive 18.5 Gallon\*\* water tank, manual drain function and a continuous water supply connection allows for long periods of cooling. This unit is built with UV-resistant materials and has a weather resistant construction for use indoors and outdoors, ideal for cooling your outdoor patio events, BBQ area and even an office warehouse or outdoor restaurant area.

### LED Control Panel & Remote Control

\* All specifications mentioned are under test conditions, actual performance depends on ambient conditions. Specifications may vary in different countries and subject to change without prior notice.  
 \*\* Water Capacity is the total volume of water that can be contained within the air cooler water tank and water distribution system.

Product Dimensions (in)	27.8 (W) 16.8 (D) 39.7 (H)
Net Weight	40.8 lbs / 18.5 kg
UPC Barcode	848987001890
EAN Barcode	4895007934450
Container Qty 40' HQ	192 pcs

## FEATURES & BENEFITS

Weather-Resistant For Outdoor Use

Stronger & Longer Air Throw  
 588 CFM (1000 m<sup>3</sup>/hr)\*

Auto-Start On Power Back Function

Horizontal Louvers  
 Auto-Close On Power Off

JUMBO Honeycomb Cooling Media And Mesh Filter For Optimum Cooling

Low Power Consumption  
 280 Watts\*

Water Capacity  
 18.5 Gallons (70 Liters)\*\*

Cools Up To  
 342 Sq.ft (32 Sq. m)\*

3 Speeds:  
 High / Medium / Low

Continuous Water Supply Connection
