

# COLDHEAT®

OVER 5 MILLION SOLD – NORTH AMERICA’S #1 SOLDERING TOOL

The ColdHeat Soldering Pen is the most popular cordless soldering tool in North America and the only product that uses Cool Touch® technology to safely and effectively tackle all types of light duty electronic, home, and craft projects. It is protected by multiple patents, trademarks, and trade secrets.

The new and advanced Ceramic Tip has been redesigned to improve durability and is **15 times stronger** than its predecessors.

## DISTINCTIVE FEATURES:

- Fast** the tip heats in less than 1 second – up to 700°F
- Safe** the tip cools down in seconds for most applications
- Convenient** built-in LED project light and automatic shut-off
- Durable** the new Ceramic Tip is 15 times stronger
- Portable** completely cordless, so it can go anywhere you go
- Efficient** more than 600 joints per battery pack
- Low Consumption** uses 4 AA alkaline batteries (not incl.)

70°F to 700°F

in 0.25 seconds and back to touch-safe in no time

5 YEAR WARRANTY (excludes tip)
