

# DIGITAL HYBRID

Equipped with **QUIET TECHNOLOGY**

## 50% QUIETER & 20% LIGHTER

Compared to a traditional 3500W Champion Generator

**4000**  
STARTING WATTS

**3500**  
RUNNING WATTS

**17**  
RUN TIME\*

**64**  
NOISE LEVEL\*\*

### QUIET TECHNOLOGY

Quieter, lighter, smaller... **BETTER**

### RV READY

Start and run a **15,000 BTU RV AC**

### PARALLEL READY

Link with another unit for **MORE POWER**

\*Run time is for gasoline operation at 25% load.  
\*\*As measured from 23 ft.  
\*\*\*Actual product may differ slightly from the image.

By integrating digital components used in more advanced inverters – known as Quiet Technology – and utilizing a more efficient mechanical design, Champion was able to cut the generator's noise level in half and reduce its overall footprint and weight by 20%.

### KEY FEATURES

- > **Clean Power** – low THD (3% or less)
- > **Fully Assembled** – just add gas and oil
- > **Extended Run Time** – up to 17 hours\*
- > **Quick Touch Panel** – all controls on one panel
- > **Economy Mode** – save fuel, extend engine life

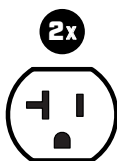

### SPECIFICATIONS

- > Voltage: 120V AC & 12V DC
- > Start Type: Manual
- > Engine: 224cc Champion OHV
- > Fuel: Gasoline
- > Compliance: 50 State

### RECEPTACLES

**30 AMP RV**  
120V, TT-30R

**20 AMP**  
120V, 5-20R

**12V DC**  
Automotive

### INSIDE THE BOX

**GENERATOR**

**OIL FUNNEL**

**USB ADAPTER**

**OWNER'S MANUAL**

**BATTERY CHARGING CABLES**

### WHAT YOU NEED

**GAS**

**OIL (10W-30)**

Gross: 87.5 lb.  
Carton: 21.1 x 18.7 x 18.5 in.

Net: 81.6 lb.  
Product: 20.5 x 17.9 x 17.7 in.
