Parts Included

Screws Anchors Bracket

Plug-In - ASSEMBLY INSTRUCTIONS

1. Place the Lamp Shade with Pipes on a flat smooth surface.
2. Then connect the Pipe A to the Lamp Shade bottom end, thread the pipe clockwise ensuring it is straight (gently pull the cord from the end of the Pipe A).
3. Next connect the Pipe B to the end of the Pipe A (gently pull the cord from the end of Pipe B), proceed carefully to ensure the electrical cord does not get damaged.
4. Once the lamp is assembled you will be able to select the desired hanging height of the Wall Sconce, mark the wall with a pencil and install the provided wall anchor and screw.
5. Proceed hanging the Wall Sconce from the Hanging bar indicated in the diagram.
6. Lastly install the provided Pipe B Bracket on the wall, you must install this bracket at the end of the Pipe B as shown in the diagram so the lamp gets secured to the wall and without movement.
7. Install the BULB(s) (Not included)

⚠ CAUTION - Refer to the wattage caution label located near the lamp holder for maximum wattage - do not exceed the maximum wattage.

E12 Type B12, 40W Max (Not included)
Consider using a vintage bulb type to enhance your new lamp!

⚠ WARNING - Do not attempt to replace the bulb(s) while the lamp is plugged into a wall receptacle

Note: The above diagram is a representative drawing, it is not intended to match the shade style.
