

21665Q

Power Mixer

LESS MESS

Variable speed finger-tip control dial prevents splashing at start up

DURABLE

Motor housing is lightweight and impact resistant

POWERFUL

High-torque, 2-speed motor

ERGONOMIC

Handle grip reduces fatigue and minimizes strain

HEAVY DUTY

Designed to mix thick and dense materials

FREE CHUCK KIT

For use with any non-threaded mixing paddle

SPECIFICATIONS

ITEM NO.	21665Q
AMPS	11
VOLTS	120 V
MOTOR	1300 watts, 2 speed: LOW 180-260 RPMs HIGH 300-700 RPMs
WEIGHT	13 lbs, 9 oz

This lightweight, impact resistant Power Mixer was designed with the professional installer in mind. The ergonomic handle grip helps to reduce fatigue and minimize strain, while its high torque, 2-speed motor provides maximum power and increased motor life. In addition, the RPM's are controlled by a variable speed dial, enabling the user to run the mixer at variable speeds, preventing splashing at start up. The QEP 21665Q is also equipped with a male-threaded paddle that is specially designed for a complete mix of mortar, thinset, grout and other viscous materials, while minimizing user effort. A free chuck kit is included for use with non-threaded mixing paddles.
