FILL and SEAL™ Expanding Foam Sealant

Ready-to-use expanding polyurethane foam sealant

FILL and SEAL™ is a ready-to-use expanding polyurethane foam sealant that fills, seals and insulates gaps greater than 1 inch. It can be used to fill gaps around the home on the interior or exterior. FILL and SEAL™ Expanding Foam Sealant expands to take the shape of gaps, creating a long-lasting, airtight and water-resistant seal to minimize drafts.

Features:
- Fills, seals and insulates gaps greater than 1 inch
- Ready-to-use (straw applicator)
- Forms a long-lasting weathertight and water-resistant seal to minimize drafts
- Interior/exterior use
- Adheres to wood, metal, masonry, glass and most plastics
- Tack free in 15 minutes; Trims in one hour
- Cures rigid
- Paintable, stainable and sandable
- Cream colored foam
- UL Classified

1Skin of cured foam can discolor if exposed to natural light. Paint or coat foam for best results.
2The product adheres best when the surfaces are clean and free of oil or chemicals.
370 ± 5°F and 50 ± 5%RH, 1 inch bead diameter, 6 inch length. Cure rate is dependent on temperature, humidity, and size of foam bead.

FILL and SEAL™ Expanding Foam Insulation and Sealants

CAUTION: When cured, these products are combustible and will burn if exposed to open flame or sparks from high-energy sources. Do not expose to temperatures above 240°F (116°C). For more information, consult (Material) Safety Data Sheets (MSDS) call Dow at 1-866-583-2583 or contact your local building inspector. In an emergency, call 1-989-636-4400 in the U.S. or 1-519-339-3711 in Canada. When air sealing buildings, ensure that combustion appliances, such as furnaces, water heaters, wood-burning stoves, gas stoves and gas dryers, are properly vented to the outside. See: http://www.epa.gov/ias/homes/hp-ventilation.html.

FILL and SEAL™ Expanding Foam Sealants contain isocyanate and a flammable blowing agent. Read all instructions and (MSDS) carefully before use. Eliminate all sources of ignition before use. Cover all skin. Wear long sleeves, gloves, and goggles or safety glasses. Provide adequate ventilation or wear proper respiratory protection. Contents under pressure. Not to be used for filling closed cavities or voids such as between walls and under tub surrounds.

Building and/or construction practices unrelated to building materials could greatly affect moisture and the potential for mold formation. No material supplier including Dow can give assurance that mold will not develop in any specific system.
