

GL^{OW}PEAR[®]

GLOWPEAR MINI BENCH

KEY FEATURES INCLUDE

- **Engineered for edibles:** Designed for growing a wide range of fruits, vegetables, herbs, and flowers
- **Self watering:** Glowpear's set and forget integrated self watering technology to help plants thrive
- **Contemporary design aesthetic:** Designed for contemporary urban spaces
- **Tough and resilient:** UV resistant, durable polymer body with double-walled construction for insulation against hot and cold weather
- **Portability:** Conveniently compact, lightweight and versatile, the Mini is highly portable
- **Irrigation flexibility:** Option to water directly into the reservoir via the easy access fill point; via an automated irrigation system; or, directly into the soil
- **Real-time feedback:** Integrated water level indicator to provide real-time water level feedback
- **Modularity:** Easily add and interconnect additional modules to expand your garden
- **Surface Protection:** Built-in drip tray ensures indoor or outdoor surface protection

USER CONTEXTS

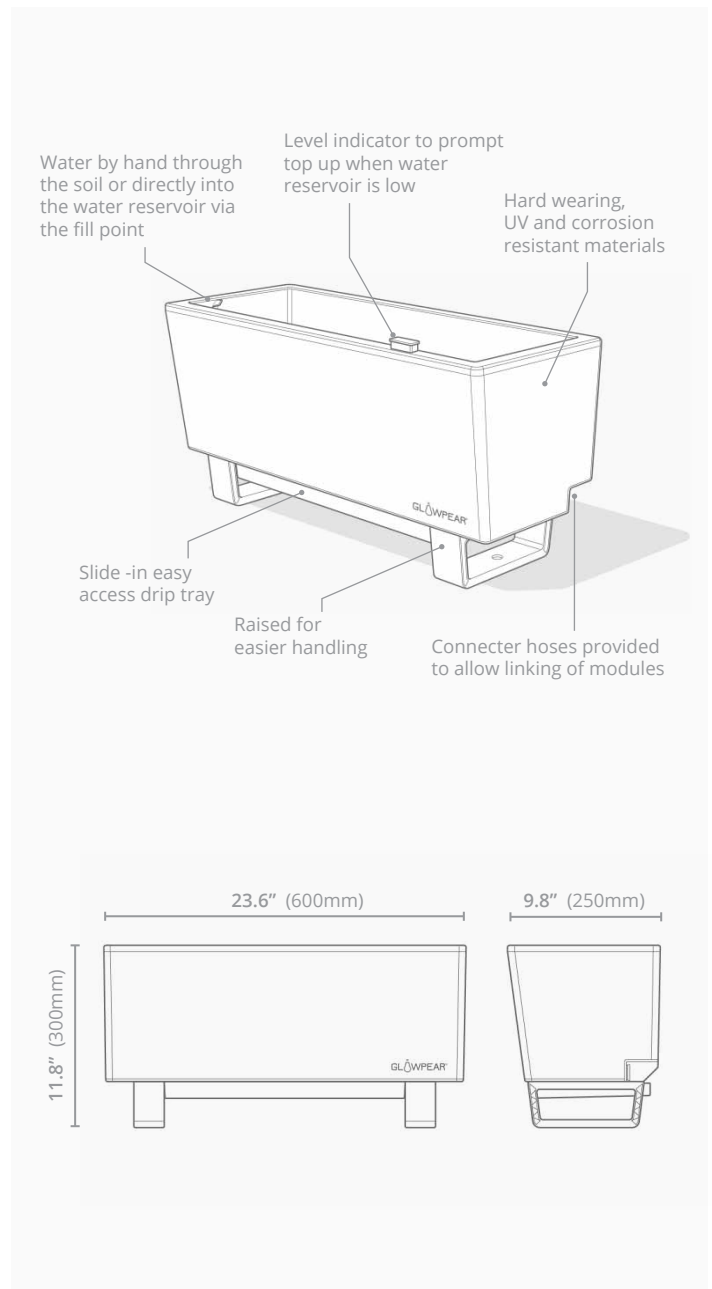

- Perfect for kitchen benches, window sills and small spaces, indoors and out
- Suitable for home or commercial environments
- A range of applications within balconies, courtyards, and apartments
- Broad appeal to young professionals, families, empty nesters, and design conscious consumers
- Ideal tool for teaching urban farming within schools, care facilities and family contexts

CONSTRUCTION MATERIALS

- Injection molded HDPE planter
- Glass filled HDPE legs
- 100% Recyclable materials
- Food safe, BPA free
