# THERMAL ACOUSTICAL PEST CONTROL (T.A.P.<sup>®</sup>) INSULATION

EASY TO INSTALL · CONTROLS PESTS · SAVES ON ANNUAL HEATING · COOLING COSTS

T.A.P.<sup>®</sup> Pest Control Insulation protects your home and delivers comfort—a revolutionary insulation and pesticide in one that combines environmentally responsible borate-based pest control with cellulose insulation made from 87.5% recycled paper. TAP<sup>®</sup> Pest Control Insulation is ideal for new and existing homes. Blown in directly on top of existing insulation or as a new presentation, TAP<sup>®</sup> Pest Control Insulation enhances the home's thermal envelope helping to reduce monthly heating and cooling costs for the life of the home, provides superior acoustic performance, and helps protect your home from annoying insects and other arthropods including Ants, Booklice, Centipedes, Cockroaches, Crickets, Darkling Beetles, Earwigs, Millipedes, Silverfish, Sow Bugs, and Termites (including Formosan Termites).

- Insulation maintains R-value over time while providing temperature and sound control
- ENERGY STAR<sup>®</sup> certified, UL Classified, and formaldehyde free
- Thermal insulation performance helps lower monthly heating/cooling costs up to 20%
- Can be applied directly on top of existing insulation to achieve greater R-value in the attic as well as interior and exterior wall applications
- 87.5% total recycled content
- Permanently guards against flame spread
- Highly resistant to air infiltration
