

Care and Cleaning of Contractors Wardrobe® Products

To enjoy many years of service from our fine quality products, please follow these instructions:

WHITE HARDBOARD PANELS

Cw®'s Prefinished White Hardboard Panels are a great alternative to mirror. It can be a challenge to clean, accumulating dirt and dust over time, but using these guidelines, it is possible to keep your prefinished white hardboard panels clean with a minimum of effort and time.

It is best to start with a clean, damp cloth to wipe the panels. If something stronger is needed, use an all-purpose cleaner or white vinegar diluted in water. Rinse and dry. Use a toothbrush to clean along the edges and cracks. Let the surface dry completely.

Never use cleaners with bleach or other harsh abrasives as they will damage and dull the surface.

Mr. Clean Magic Erasers are also a favorite tool of ours.

"We Set The Standard."
