

HD-1000

travel bidet

User Guide

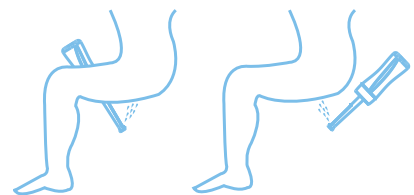

1. Fill the bidet with water and screw the nozzle cap on securely. Be sure to use caution when using hot water.

2. Cover the air lock at the bottom of the bidet to prevent leaking and turn the bidet upside down.

3. Point the bidet nozzle to the area you wish to clean and remove your finger from the air lock. Squeeze the bidet firmly to spray the water.

Warranty

- 1 Year Warranty
