

Stone Vents

Made2Match Vents are a perfect match to your tile floor because they are made from the same model of tile that you have chosen for your floor. As such, your Made2Match Tile Vent should be treated and cared for according to the use and care instructions provided by the company that manufactured your floor tile.

For use and care of your Made2Match Tile Vent, please refer to and follow the tile manufacturers instruction for use and care of their corresponding tile.

All Made2Match Vents are reinforced with an epoxy coated steel backer plate making them durable and safe to walk on even in high traffic areas.
