

# Algicide MAXBlue®

## DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in any manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements, storage, disposal and directions.

### **PRIOR TO APPLICATION:**

1. Ensure all equipment is working properly. If necessary, clean the filter system.
2. Adjust pH between 7.2-7.6.
3. Establish and maintain proper chlorine or bromine levels. In chlorine-treated pools, add stabilizer to establish a minimum level of 30-40 ppm of cyanuric acid to reduce the degrading effects of sunlight on chlorine residual.
4. Vacuum leaves and any other foreign debris from pool.
5. Brush visible algae thoroughly from the pool's surface with a surface-compatible brush.

### **TO PREVENT ALGAE:**

1. Initially apply 8 fl oz of this product per 10,000 gallons of pool water with pump and filter operating.
2. Thereafter, for weekly application intervals, add 1.5 fl oz per 10,000 gallons of pool water. For two week application intervals, add 3 fl oz per 10,000 gallons of pool water every other week. Apply more often if pool volume is diluted by heavy rain, frequent backwashing or partial drain/refill.
3. Wait at least 15 minutes after application before entering pool.

### **TREATMENT OF VISIBLE ALGAE:**

1. Add 1 lb of Pool Time MAXBlue Chlorinating Granules or Pool Time MAXBlue All-In-One Chlorinating Granules per 10,000 gallons of pool water. Follow application directions on that product.
2. Allow to circulate for 1 hour.
3. With pump and filter operating, apply 16 fl oz of Pool Time Algicide MAXBlue per 10,000 gallons of pool water directly to the pool water in areas of heaviest algae growth.
4. Continuously circulate pool water for 24 hours.
5. The next day, thoroughly brush pool surfaces.
6. In cases of persistent algae, repeat brushing and product application after 2-4 days.
7. The Pool Time MAXBlue Chlorinating Granules contains a built-in clarifier/filtration enhancer to assist in removing dead algae.

### **IMPORTANT NOTES:**

1. Do not use in pools sanitized with biguanides or pools treated with hydrogen peroxide.
2. Prior to the initial application of this product, test pool water for the presence of metals. If metals are present, apply a metal stain preventative per label directions.
3. When using other products, always follow label directions for those products.
4. †Full strength product will stain porous pool surfaces.

**IN CASE OF MEDICAL EMERGENCY, CALL 1-877-800-5553.**

**PHYSICAL OR CHEMICAL HAZARDS:** Do not mix with other chemicals.

**ENVIRONMENTAL HAZARDS:** This pesticide is toxic to fish and aquatic organisms.

**NOTE:** User assumes all responsibility for use not in accordance with directions.
