

Important Points

- This installation guide is subject to change without notice, please contact us to request the most updated version of this installation guide.
- This is a general installation guideline, actual installation may vary. Consult a professional installer if necessary.
- Read and understand this instructions completely before installation.
- Please follow all local building and plumbing codes.
- Product drawings in this installation guide is for illustration purpose only. Actual product may vary depends on model.
- Always take extra precautions and wear appropriate safety equipment when installing this product.
- Wrap all threaded connections, except the aerator in the spout, with Teflon (PTFE) tape. Always wrap in a counterclockwise direction.
- When installing your new faucet, first hand tighten the water supply hoses then use a wrench to give the compression nuts an additional (1/4) turn. Do not over tighten the compression nuts as it will reduce the integrity of the sealed connection.

You may also need the following tools

1. Safety Glasses	5. Adjustable Wrench
2. Teflon (PTFE) Tape	6. Screwdriver
3. Plumber's Putty and Caulking	
4. 1 3/8" Basin Wrench or 1 11/32" Shower Valve Socket Wrench	

Maintenance Guide

Please follow the cleaning material manufacturer's instructions. Damage caused by improper treatment will not be covered by product warranty. In addition, pay attention to the following points:

- Regular cleaning can prevent mineral build up on faucet spout.
- Carefully read the cleaner product label to ensure the cleaner is safe for use on the material.
- Test the cleaner on a small area before using on the entire surface.
- Use a mild detergent such as liquid dishwashing soap and warm water for cleaning.
- Do not use abrasive / harsh chemical when cleaning the fixture as they will damage and dull the finish.
- When using spray cleaners, spray first onto a soft cloth or sponge. Never spray directly onto the faucet as droplets can enter openings and gaps and cause damage.
- After cleaning, rinse thoroughly with clean water to remove any cleaner residue.
