

**FINISHES  
FOR  
STARLIKE®**

**DESCRIPTION**

Galaxy, Spotlight, Gold an Night Vision additives obtain grouts with unique and exclusive effects without prejudicing the ease of cleaning of the product when mixed together with the two-part epoxy mortar STARLIKE®. These additives are available separately, in pre-measured packages of 2.5 kg Starlike®.

**GALAXY**

This component can be added to any color from the STARLIKE® range to get a “metallic “effect. In comparison with the original color without additive, the result will be a slightly lighter coloring.

**SPOTLIGHT**

This component can be added to any color from the Starlike® or Starlike® Monomix range to get a shiny silver glitter effect. The intensity of the original color isn't changed.

**GOLD**

This component can be added to any color of the Starlike® or Starlike® Monomix range to get a golden glitter effect. The original color isn't changed.

**NIGHT VISION**

This component can be mixed with following Starlike® colours: Silver, Travertino, Sabbia, Avorio, Tortora, Azzurro Pastello, Turchese, Artico Blu, Verde Salvia, Zaffiro, Lime, Corallo, Lilla, Ciclamino.

It is a luminescent additive that creates grouts give off a bluish color in the dark for some hours, without changing the original color of the product and after being exposed to sunlight or artificial light.

**METALLIC COLLECTION**

The additives PLATINUM, SHINING GOLD, BRONZE, COPPER and RUSTY when mixed together with the two-part epoxy mortar STARLIKE® in the color Neutro C.340, create grouts with unique and exclusive effects without prejudicing the ease of cleaning of the product. These additives are available separately in pre-batched packages for the 2.5 kg Starlike® Neutro C.340.

**FIELDS OF APPLICATION**

Special additives for the Starlike® two-part epoxy mortar suitable for grouting floor and wall tiles, grès stoneware, mosaics, clinker in interiors such as: bathrooms, kitchens, floors and shops, columns, etc.

**MIX PREPARATION**

Mix part B (catalyst) with part A (colored paste) of the 2.5Kg Starlike® bucket using an electric drill equipped with mixing paddle until a uniform, lump-free mix is obtained.

Pour the third component (GALAXY, SPOTLIGHT, GOLD, NIGHT

VISION or the additives of the METALLIC COLLECTION

(Platinum, Shining Gold, Bronze, Copper, Rusty), already prebatched in its package and mix until obtaining a smooth mixture.

For Starlike® Monomix, delicately pour into the 2.5 kg buckets and mix manually with a steel trowel or spatula.

### APPLICATION

Introduce the mortar into the joints using a rubber float and clean with water following the instructions on the Starlike® packaging.

### WARNING

- Do not apply Starlike® epoxy mortar mixed with the GALAXY-SPOTLIGHT-GOLD-NIGHT VISION components, nor with the “metallic collection” components on ceramic

surfaces in contact with chemical weapons such as on industrial floorings. • Do not mix the Galaxy additive with Starlike® Decor or Starlike® Monomix.

- Handle the additives with care as they have a very low specific gravity and are therefore extremely volatile.

- If the ceramic tiles are exposed to sunlight or artificial light , the effects obtained will be more noticeable.
