NICOR's LED Under Cabinet luminaires are not only economical, but are environmentally friendly lasting 10 times longer than halogen lighting. The NUC-2 offers a specially designed diffuser that eliminates hot spots on counter surfaces. The slim 1.13" profile also ensures you'll see the light and not the fixture. Available in five sizes and in four decorative colors, the NUC-2's cool operating temperature and warm natural color makes this energy efficient fixture a great choice for accent, office, cove, task, and display lighting.

FEATURES

- Low profile aluminum housing, with high/low/off rocker switch
- Uniform lighting with specially designed diffuser to prevent hot spots on counter tops
- Custom low-profile driver
- Lifetime rated for greater than 50,000 hours
- Available in 4 decorative finishes: nickel, oil-rubbed bronze, black, and white
- Easy surface mount installation
- 2700K CCT
- 5 year warranty
