

Skytile™ LED Flat Panel Lights

Skytile high performance LED flat panels offer high quality, glare-free illumination for comfortable, even lighting in workplace and residential settings. Featuring simple, clean lines and a flat surface that avoids build-up, Skytile's ultra-thin, light weight design offers years of maintenance free reliability.

Skytile is the smart solution for a wide variety of applications. The quick and easy retrofit design makes it ideal for placement in ceiling grids, offices, meeting rooms, corridors and basements.

Product Features:

- Replaces traditional fluorescent fixtures
- Quick and easy to install
- Up to 50% more efficient than fluorescent
- Dimmable* for task requirements and energy savings
- 50,000 hour LED life, no bulbs to replace
- 5 year extended warranty

**Dimming requires a 0-10 Volt dimmer. Recommended devices include Leviton part nos. IP710 or DS710*

The Skytile™ Advantage

Ultra-slim 0.39" light weight construction is durable and easy to install. The ultra-slim aluminum structure aligns the LED chips with the light transmitter.

The **opal light diffuser** provides even light distribution and minimizes glare to create a comfortable work environment.

State-of-the-art light transmitter ensures light moves evenly throughout the fitting. The 'light pixels' covered base transmits all the light into the diffuser.

Advanced LED technology provides maximum light distribution using minimal energy consumption. Light is projected from the LED chips directly into the light transmitter.

The high quality steel **light reflector** ensures that all light is reflected back into the light transmitter.

Smooth, even light distribution prevents hotspots and shadowing.

Poor quality LED panels.

Ordering information:

Cat. No.	 Color Temperature	 Watts (LED)	 Lumens (LED)	 Lumens per Watt	 Size
SKT12	Cool White 4000K	20	1700	85	1' x 2' (11.75" x 23.75")
SKT14	Cool White 4000K	40	3400	85	1' x 4' (11.75" x 47.75")
SKT22	Cool White 4000K	50	4250	85	2' x 2' (23.75" x 23.75")
SKT24	Cool White 4000K	50	4250	85	2' x 4' (23.75" x 47.75")
