Pelican
Water Systems

Thank you for your inquiry!

You have taken the first step in improving the quality of life for you and your family by considering one of our Premium Pelican Systems. All of our systems are built to last, using the highest quality materials and components manufactured right here in the USA.

Pelican Water is the market leader in salt-free water softening systems and as such is firmly committed to creating products for your home that not only allow you to have cleaner, safer water for drinking and washing, but our products are all environmentally friendly too wasting no electricity or water! A big part of this is our NaturSoft salt-free softeners and our premium carbon water filtration systems.

We want to be sure you find the most-effective and lowest lifetime cost system to suit your exact needs. You can contact us by calling **1-877-842-1635** or by sending us an email at **sales@pelicanwater.com**. One of our knowledgeable and friendly Water Specialists will be happy to assist you.

If you decide to choose Pelican for your water quality needs, you are choosing a Company who stands behind its commitment to provide your home protection from water impurities, with a 100% customer satisfaction guarantee.

If you are ready to purchase a Pelican system for your home, simply visit www.PelicanWater.com and join the thousands of customers who have already discovered the many benefits of having a Pelican Water System in their homes.

Sincerely,

Pelican Water Systems

Follow us on:

The contaminants or other substances removed or reduced by this water filter are not necessarily in all users' water. Do not use with water that is microbiologically unsafe, or of unknown quality, without adequate disinfection before or after the system. Systems that are certified for cyst reduction may be used on disinfected water that may contain filterable cysts. Individuals requiring water of certain microbiological purity should consult their physician.

*Florida residents pay sales tax - Please visit our website for additional details
