Up to 24 in. Tile

DIAGONAL
Up to 18 in. Tile

DEPTH
2-3/8 in. Max. Tile Depth

CONVENIENT
Stand with locking wheels

EASY TRANSPORT
Built-in transport wheels

The 61024BR 24" Tile Saw comes fully equipped with an adjustable tilting head that offers quick and easy 45° to 90° miter cuts and a locking tilt-up blade guard that makes blade changes quickly and easily! The powerful 3450 RPM motor cuts marble, granite, stone, porcelain & masonry products (for porcelain and hard tiles, we recommend QEP's Black Widow Blade #6-1008BW). This professional tile saw features an enclosed dual water spray system which evenly distributes water flow and extends the life of the diamond blade, while the convenient stand with rear locking wheels keep the tile saw secure, and easily transportable. It has a large non-slip rubber matted table with a pull-out extension that supports large format tile and slabs. The fiberglass impregnated water tray allows users to easily slide the tray out for easy cleaning.
