STOVETOP FIRESTOP

AUTOMATIC FIRE SUPPRESSION SINCE 1972

THE COOKING FIRE PROBLEM

Cooking is the leading cause of all residential fires and fire-related injuries, 15% of all property damage, and the third leading cause of home fire deaths.

- Cooking is THE leading cause of residential fires
- Leading cause of unreported fires

2

... out of every five fire-related injuries in the home are due to cooking
... out of every five home fires start in the kitchen

- Cooking related fires are the 3rd leading cause of death in the home
- Three out of five home fire deaths occurred in homes where no smoke alarm was present

EVERY MINUTE COUNTS

- 10^M/_N** A grease fire auto-ignites
- 11^M/_N** Smoke detector goes off
- 12^M/_N** Smoke spreads throughout room
- 13^M/_N** Visibility is lost
- 14^M/_N** Fire engulfs the entire room
