

SAFETY DATA SHEET

Piranha™ Gel Wallpaper & Paste Remover

According to Appendix D, OSHA Hazard Communication Standard 29 CFR §1910.1200

1. Identification			
Product identifier			
Product name	Piranha™ Gel Wallpaper & Paste Remover		
Recommended use of the chemical and restrictions on use			
Application	Adhesive Remover.		
Uses advised against	Use only for intended applications.		
Details of the supplier of the safety data sheet			
Supplier	Roman Decorating Products, LLC 824 State Street Calumet City, IL 60409 United States Tel: 708-891-0770 Fax: 708-891-4746 technicalhelp@romandec.com		
Emergency telephone number	Emergency telephone number		
Emergency telephone	Tel: 708-891-0770		
2. Hazard(s) identification			
Classification of the substand	ce or mixture		
OSHA Regulatory Status	This Product is Not Hazardous under the OSHA Hazard Communication Standard.		
Physical hazards	Not Classified		
Health hazards	Not Classified		
Environmental hazards	Aquatic Acute 3 - H402 Aquatic Chronic 3 - H412		
Label elements			
Hazard statements	H412 Harmful to aquatic life with long lasting effects.		
Precautionary statements	P273 Avoid release to the environment. P501 Dispose of contents/ container in accordance with national regulations.		
Other hazards			
None known.			
3. Composition/information o	n ingredients		
Mixtures			

Mixtures

Triethanolamine	0.25 - <0.5%	
CAS number: 102-71-6		
Substance with National work	xplace exposure limits.	
Classification Not Classified		
The full text for all hazard statements is displayed in Section 16.		
Ingredient notes	The exact percentage/concentration is withheld as a trade secret in accordance with 29 CFR 1910.1200.	
4. First-aid measures		
Description of first aid measur	es	
General information	Get medical attention if any discomfort continues. Show this Safety Data Sheet to the medical personnel.	
Inhalation	Move affected person to fresh air and keep warm and at rest in a position comfortable for breathing. Loosen tight clothing such as collar, tie or belt. Get medical attention if symptoms are severe or persist.	
Ingestion	Rinse mouth thoroughly with water. Get medical advice/attention if you feel unwell. Do not induce vomiting unless under the direction of medical personnel.	
Skin Contact	It is important to remove the substance from the skin immediately. Remove contamination with soap and water or recognized skin cleansing agent. In the event of any sensitization symptoms developing, ensure further exposure is avoided. Get medical attention if symptoms are severe or persist after washing.	
Eye contact	Remove any contact lenses and open eyelids wide apart. Rinse with water. Get medical attention if any discomfort continues.	
Protection of first aiders	First aid personnel should wear appropriate protective equipment during any rescue.	
Most important symptoms and	l effects, both acute and delayed	
General information	The severity of the symptoms described will vary dependent on the concentration and the length of exposure.	
Inhalation	No specific symptoms known.	
Ingestion	No specific symptoms known. May cause discomfort if swallowed.	
Skin contact	May be slightly irritating to skin. The product contains a small amount of sensitizing substance. May cause skin sensitization or allergic reactions in sensitive individuals.	
Eye contact	May be slightly irritating to eyes.	
Indication of immediate medic	al attention and special treatment needed	
Notes for the doctor	Treat symptomatically.	
5. Fire-fighting measures		
Extinguishing media		
Suitable extinguishing media	Extinguish with alcohol-resistant foam, carbon dioxide, dry powder or water fog. Use fire- extinguishing media suitable for the surrounding fire.	
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.	

Special hazards arising from the	ne substance or mixture
Specific hazards	Containers can burst violently or explode when heated, due to excessive pressure build-up.
Hazardous combustion products	Thermal decomposition or combustion products may include the following substances: Harmful gases or vapors. Oxides of carbon. Oxides of nitrogen.
Advice for firefighters	
Protective actions during firefighting	Avoid breathing fire gases or vapors. Evacuate area. Cool containers exposed to heat with water spray and remove them from the fire area if it can be done without risk. Cool containers exposed to flames with water until well after the fire is out. If a leak or spill has not ignited, use water spray to disperse vapors and protect men stopping the leak. Control run-off water by containing and keeping it out of sewers and watercourses. If risk of water pollution occurs, notify appropriate authorities.
Special protective equipment for firefighters	Wear positive-pressure self-contained breathing apparatus (SCBA) and appropriate protective clothing. Standard Firefighter's clothing including helmets, protective boots and gloves will provide a basic level of protection for chemical incidents.
6. Accidental release measure	IS
Personal precautions, protecti	ve equipment and emergency procedures
Personal precautions	Evacuate area. Keep unnecessary and unprotected personnel away from the spillage. Wear protective clothing as described in Section 8 of this safety data sheet. Avoid contact with skin, eyes and clothing. Avoid inhalation of vapors. Do not touch or walk into spilled material.
Environmental precautions	
Environmental precautions	Avoid discharge into drains or watercourses or onto the ground.
Methods and material for cont	ainment and cleaning up
Methods for cleaning up	Wear protective clothing as described in Section 8 of this safety data sheet. Clear up spills immediately and dispose of waste safely. Small Spillages: Wipe up with an absorbent cloth and dispose of waste safely. Large Spillages: Contain and absorb spillage with sand, earth o other non-combustible material. Collect and place in suitable waste disposal containers and seal securely. Label the containers containing waste and contaminated materials and remove from the area as soon as possible. The contaminated absorbent may pose the same hazard as the spilled material. Flush contaminated area with plenty of water. Wash thoroughly after dealing with a spillage. For waste disposal, see Section 13.
Reference to other sections	For personal protection, see Section 8. See Section 11 for additional information on health hazards. See Section 12 for additional information on ecological hazards. For waste disposal, see Section 13.
7. Handling and storage	
Precautions for safe handling	
Usage precautions	Read and follow manufacturer's recommendations. Do not handle until all safety precautions have been read and understood. Keep out of the reach of children. Keep away from food, drink and animal feeding stuffs. Wear protective clothing as described in Section 8 of this safety data sheet. Avoid contact with skin, eyes and clothing. Use only in well-ventilated areas. Use only when the room temperature is above: 60-70 °F. Handle all packages and containers carefully to minimize spills. Keep container tightly sealed when not in use. Avoid the formation of mists. Do not handle broken packages without protective equipment. Do not reuse empty containers.
Advice on general occupational hygiene	Wash promptly if skin becomes contaminated. Take off contaminated clothing and wash before reuse. Wash contaminated clothing before reuse.

Special hazards arising from the substance or mixture

Conditions for safe storage, inc	cluding any incompatibilities
Storage precautions	Store away from incompatible materials (see Section 10). Keep out of the reach of children. Keep away from food, drink and animal feeding stuffs. Store in tightly-closed, original container in a dry and cool place. Do not freeze. Keep containers upright. Protect containers from damage.
Specific end uses(s)	
Specific end use(s)	The identified uses for this product are detailed in Section 1.
8. Exposure controls/Personal	protection
<u>Control parameters</u> <u>Occupational exposure limits</u> Triethanolamine	
Long-term exposure limit (8-ho ACGIH = American Conference	ur TWA): ACGIH 5 mg/m³ e of Governmental Industrial Hygienists.
Ingredient comments	The product contains no other substances classified as hazardous to health by an OEL value in concentrations which should be taken into account.
Exposure controls	
Appropriate engineering controls	Provide adequate ventilation.
Eye/face protection	Eyewear complying with an approved standard should be worn if a risk assessment indicates eye contact is possible. Wear chemical splash goggles. Personal protective equipment for eye and face protection should comply with OSHA 1910.133.
Hand protection	Chemical-resistant, impervious gloves complying with an approved standard should be worn if a risk assessment indicates skin contact is possible. To protect hands from chemicals, gloves should comply with OSHA 1910.138 and be demonstrated to be impervious to the chemical and resist degradation. The most suitable glove should be chosen in consultation with the glove supplier/manufacturer, who can provide information about the breakthrough time of the glove material. Considering the data specified by the glove manufacturer, check during use that the gloves are retaining their protective properties and change them as soon as any deterioration is detected.
Other skin and body protection	Wear appropriate clothing to prevent skin contamination.
Hygiene measures	Wash hands thoroughly after handling. Do not eat, drink or smoke when using this product. Wash contaminated clothing before reuse.
Respiratory protection	No specific recommendations. Provide adequate ventilation. Large Spillages: If ventilation is inadequate, suitable respiratory protection must be worn. Ensure all respiratory protective equipment is suitable for its intended use and is NIOSH approved.
Environmental exposure controls	Keep container tightly sealed when not in use. Avoid release to the environment.
9. Physical and chemical prop	erties

Information on basic physical and chemical properties

Appearance	Liquid.
Color	Clear.
Odor	Fresh.

Odor threshold	No data available.
рН	7.0
Melting point	0°C/32°F
Initial boiling point and range	100°C/212°F
Flash point	No data available.
Evaporation rate	No data available.
Flammability (solid, gas)	No data available.
Upper/lower flammability or explosive limits	No data available.
Vapor pressure	No data available.
Vapor density	No data available.
Relative density	1.0
Solubility(ies)	Miscible with water.
Partition coefficient	No data available.
Auto-ignition temperature	No data available.
Decomposition Temperature	No data available.
Viscosity	2500 cP
Explosive properties	No data available.
Out difference and the s	No data available.
Oxidizing properties	
Volatile organic compound	0.36%
Volatile organic compound

Stability and reactivity Reactivity Stability Possibility of hazardous reactions Conditions to avoid Materials to avoid Hazardous decomposition	0.36% See the other subsections of this section for further details. Stable at normal ambient temperatures and when used as recommended. Stable under the prescribed storage conditions. No potentially hazardous reactions known. Avoid freezing. Avoid exposure to high temperatures or direct sunlight. Do not mix with other chemicals. Avoid contact with acids and alkalis.
Volatile organic compound 10. Stability and reactivity Reactivity Stability Possibility of hazardous reactions Conditions to avoid Materials to avoid Hazardous decomposition products	0.36% See the other subsections of this section for further details. Stable at normal ambient temperatures and when used as recommended. Stable under the prescribed storage conditions. No potentially hazardous reactions known. Avoid freezing. Avoid exposure to high temperatures or direct sunlight. Do not mix with other chemicals. Avoid contact with acids and alkalis. Does not decompose when used and stored as recommended. Thermal decomposition or combustion products may include the following substances: Harmful gases or vapors. Oxides of carbon. Oxides of nitrogen.

Acute toxicity - dermal Notes (dermal LD₅₀)	Based on available data the classification criteria are not met.
Acute toxicity - inhalation Notes (inhalation LC ₅₀)	Based on available data the classification criteria are not met.
Skin corrosion/irritation Animal data	Based on available data the classification criteria are not met.
Serious eye damage/irritation Serious eye damage/irritation	Based on available data the classification criteria are not met.
Respiratory sensitization Respiratory sensitization	Based on available data the classification criteria are not met.
Skin sensitization Summary	The product contains a small amount of sensitizing substance. May cause skin sensitization or allergic reactions in sensitive individuals.
Skin sensitization	Based on available data the classification criteria are not met.
Germ cell mutagenicity Genotoxicity - in vitro	Based on available data the classification criteria are not met.
Carcinogenicity Carcinogenicity	Based on available data the classification criteria are not met.
IARC carcinogenicity	Contains a substance/a group of substances which may cause cancer. IARC Group 1 Carcinogenic to humans.
Reproductive toxicity Reproductive toxicity - fertility	Based on available data the classification criteria are not met.
Reproductive toxicity - development	Based on available data the classification criteria are not met.
Specific target organ toxicity -	single exposure
STOT - single exposure	Not classified as a specific target organ toxicant after a single exposure.
Specific target organ toxicity -	repeated exposure
STOT - repeated exposure	Not classified as a specific target organ toxicant after repeated exposure.
Aspiration hazard Aspiration hazard	Based on available data the classification criteria are not met.
General information	The severity of the symptoms described will vary dependent on the concentration and the length of exposure.
Inhalation	No specific symptoms known.
Ingestion	No specific symptoms known. May cause discomfort if swallowed.
Skin Contact	May be slightly irritating to skin. The product contains a small amount of sensitizing substance. May cause skin sensitization or allergic reactions in sensitive individuals.
Eye contact	May be slightly irritating to eyes.
Route of exposure	Ingestion Inhalation Skin and/or eye contact
Target Organs	No specific target organs known.

Medical considerations Skin disc		Skin disc	orders and allergies.
12. Ecologi	cal information		
Toxicity	ŀ	Harmful	to aquatic life with long lasting effects.
Ecological information on ingredients.			
			3-lodo-2-propynyl butylcarbamate
	Toxicity		Aquatic Acute 1 - H400 Aquatic Chronic 1 - H410 Very toxic to aquatic life with long lasting effects.
	Acute aquatic toxici	ity	
	LE(C)50		$0.01 < L(E)C50 \le 0.1$
	M factor (Acute)		10
	Acute toxicity - aqua invertebrates	atic	LC₅₀, 48 hours: 0.645 ppm, Daphnia magna
	Acute toxicity - aqua plants	atic	EC₅₀, 72 hours: 0.022 mg/l, Desmodesmus subspicatus
	Chronic aquatic tox	icity	
	NOEC		0.001 < NOEC ≤ 0.01
	Degradability		Rapidly degradable
	M factor (Chronic)		1
	Chronic toxicity - fis life stage	sh early	NOEC, 35 days: 0.0084 mg/l, Pimephales promelas (Fat-head Minnow)
	Chronic toxicity - ac invertebrates	quatic	NOEC, 21 days: 0.0499 mg/l, Daphnia magna
Persistence	e and degradability		
Persistence	e and degradability	The degi	radability of the product is not known.
Ecological i	information on ingredi	ients.	
			3-lodo-2-propynyl butylcarbamate
	Persistence and degradability		The product is readily biodegradable.
	Stability (hydrolysis	5)	pH7 - Half-life : 139 days @ 25°C
	Biodegradation		Water - DT ₅₀ : 3.3 hours
Bioaccumu	lative potential		
Bio-Accum	ulative Potential	No data	available on bioaccumulation.
Partition co	efficient N	No data	available.
Ecological i	information on ingredi	ients.	
			3-lodo-2-propynyl butylcarbamate

3-lodo-2-propynyl butylcarbamate

Partition coefficie	ent log Pow: 2.81	
Mobility in soil		
Mobility	The product is water-soluble and may spread in water systems.	
Ecological information on ingr	edients.	
	3-lodo-2-propynyl butylcarbamate	
Mahility	Mobile.	
Mobility		
Adsorption/deso	ption Soil - Koc: 61 - 309 @ 22°C	
Other adverse effects		
Other adverse effects	None known.	
13. Disposal considerations		
Waste treatment methods		
General information	The generation of waste should be minimized or avoided wherever possible. Reuse or recycle products wherever possible. This material and its container must be disposed of in a safe way. When handling waste, the safety precautions applying to handling of the product should be considered. Care should be taken when handling emptied containers that have not been thoroughly cleaned or rinsed out. Empty containers or liners may retain some product residues and hence be potentially hazardous.	
Disposal methods	Do not empty into drains. Dispose of contents/container in accordance with national regulations.	
14. Transport information		
General	The product is not covered by international regulations on the transport of dangerous goods (IMDG, IATA, DOT).
