

## **USE & CARE Instructions:**

**USE:** *American Slide-Stop All Surface rug pad gripper provides a thick firm foundation feel underfoot, while protecting your flooring and rug investment. This reversible rug pad gripper was designed for use on all indoor floor surfaces such as tile, hardwood, laminates, linoleum, concrete, or on rug-to-carpet applications. It will help keep your area rug in place to avoid slipping or tripping of moving rugs, and make vacuuming easier. It's the ideal product to smooth out grout lines, and furniture indentions*

**CARE INSTRUCTIONS:** *Easy to trim with a scissors or razor knife for the perfect fit. Recommend that the pad be trimmed to a size smaller than the area rug, to allow the edges of the area rug to lay flat on the flooring surface. All Surface application: Place the fiber (scratch) side up on hard floor surfaces, and down on carpet surfaces. Indoor use only. Vacuum as needed.*
