**LILIES NON STOP BLOOMING BLEND**

Lilies are one of the truly great garden plants, as they are beloved by gardeners everywhere. Their beauty, diversity, extended season of bloom, graceful stature and overall reliable disposition reflect the fruits of hundreds of years of selective breeding. In Chinese, the word "Lily" means "forever in love". The Liliaceae family is so large, varied, and complex that it is challenging to describe them in short. Lilies are deer and critter resistant.

---

*Good full sun perennial choice*

*Grand mixture of many different varieties to extend blooming time*

*Will return for years to come*

---

*About This Variety:* Our non-stop lily blend consists of many different types of lilies; asiatics, doubles, orientals, tiger, trumpet, and species. All these lilies bloom at their own time from early spring, to mid spring, late spring and early summer, thereby greatly enhancing for maximum effect the blooming length of these perfectly blended Lilies. Plant them altogether in a single group so that something is always blooming.

*Growing Instructions:* Plant in well-drained soil where they will receive 6-8 hours of sun a day. They are winter hardy and considered a strong perennial that can be left in the ground and will re-bloom year after year if the conditions are right. Lilies perform best when mulched.

*Care Tip:* Lilies prefer cool soil, which argues for shade at their feet from low growing companions. When cutting the flowers for bouquets, remove no more than 1/3 of the stem so sufficient leaves remain to renew the bulb for the coming year.

*Exposure:* Full sun to partial shade

*Height:* Grows 26-48" tall

*Spacing:* Plant 6-8" apart, 6-8" deep

*Hardy in:* USDA zones 3-8

Guaranteed to grow 1 year from purchase if directions are followed. Any concerns related to quality and/or counts feel free to contact us.
