

Ariens MeltBuddy™ Spot Spreader
72601200

The Ariens MeltBuddy™ allows operators to clear snow and spread ice melt in one single pass. The MeltBuddy™ has an easy-to-use hand trigger and large capacity hopper which allows the operator to drop ice-melt granules where needed. Available for use on all Sno-Thro units.

Features:

- Universal mounting for easy attachment on almost any manufacturer's snow blower
- Durable high-density polyethylene survives the most extreme winter conditions
- Snap-locking hopper cover keeps blowing snow out and away from the ice melting product of your choice
- Available for use on all Ariens Sno-Thro units

Capacity:

- 20.59 cubic inches
