

Easy to Use:

1. Clean joint and push backer rod in to a depth of 1/4" to 1/2" to allow space for caulking.
2. For larger joints, twist multiple strands of rod together to fill gap.

WARNING: Do not expose to flame. Not for use with children's products or food containers. Not for use with hot melt adhesives and sealants with temperatures over 200°F (93°C). Not intended for constant water contact or marine applications.
