PRO SERIES VINYL FENCING

Pro Series Vinyl Fencing offers homeowners a professional quality alternative to their privacy and landscaping needs. Distinguished by its ingenious routed assembly system, fence rails are inserted into routed post openings for a rugged, virtually flawless fence appearance.

The Pro Series fencing is sold with rail reinforcements for unmatched strength and sturdiness. Ask an associate for more details.

The Pro Series Vinyl Fencing styles on the following pages have features that differ from traditional vinyl fencing requiring more assembly and skill during installation:

- Fence components are packaged in a box and require assembly.
- Metal reinforcements (included) must be inserted into bottom rails of fence panels and gates.
- Fence posts (sold separately) have routed holes in which fence rails are inserted, requiring staged installation of posts and fence panels.
- Post caps (sold separately) require securing to tops of posts with adhesive.
- Certain installations may require cutting of posts or fence panel components.
- Black gate hinge and latch kits are included standard with all Pro Series Gates.
