Safety Information

Save these installation instructions for future reference.

-  **WARNING:** Safety discard all packing material. Keep plastic bags and small parts away from children.
-  **CAUTION:** Accessories are installed in both top & bottom poly-foam. Please ensure all the accessories are removed from the packing before discard.
-  **CAUTION:** Safety glasses should be worn at all times.

Warranty

This product is guaranteed to operate a minimum of 1 year from the original date of purchase. If, under normal use and for the full time period, your product fails to operate, please return it to: Service Dept., Prokonian Inc., USA (with your original proof of purchase receipt) and we will refund it. This warranty is considered void if the product fails from misuse. Contact the Customer Service Team at 1-855-HD-GLACIER or visit www.homedepot.com/glacierbay.

Pre-Installation

PLANNING INSTALLATION

- Unpack your medicine cabinet carefully, and close the sink drain to prevent any dropped parts from falling into the drain.
- Before installing your medicine cabinet, decide whether you want to install your cabinet using a surface or a recess mount and determine which direction you want the door to open.
- For a recessed mount installation, you do not install the side mirrors. Additional framing may be required to secure the cabinet.

TOOLS REQUIRED

HARDWARE INCLUDED

NOTE: Hardware not shown to actual size.

CAUTION: The included plastic wall anchors (HH) are intended for use with solid wall applications only (tile and concrete). DO NOT USE WITH DRYWALL OR OTHER HOLLOW WALL APPLICATIONS. Refer to additional warning information on Page 5 of this instruction manual.

	Part	Description	Original Part QTY	Spare Part QTY

Pre-Installation (continued)

PACKAGE CONTENTS

Part	Description	Quantity
A	Hinge	2
B	Side mirror	2
C	Cabinet	1
D	Door	1
E	Shelf glass	3
F	Bottom bracket	1

Installation - Surface Mounting Only

1a Installing the bottom bracket

WARNING: If installing the cabinet on drywall or other hollow wall applications, the bottom mounting bracket (F) and top clips (II) must be fastened to studs, headers, or other structural wall members. The included plastic wall anchors are intended for use with solid wall applications only (tile or concrete). **DO NOT USE WITH DRYWALL OR OTHER HOLLOW WALL APPLICATIONS.**

- Using a level and measuring tape, ensure the bottom bracket (F) is level and positioned accordingly.
- Mount the bottom bracket (F) to the wall using the 1.5 in. Phillips head screws (GG). See the Warning regarding the fastening of the bracket (F).
- Carefully position the cabinet (C) onto the bottom bracket (F).

NOTE: The height of the bottom bracket (F) should be a minimum of 2 in. above the faucet.

2a Installing the top clips

- Install the top clips (II) by inserting the rounded ends into the rear top slot of the cabinet (C). See the Warning regarding the fastening of top clips (II).
- Slide one top clip (II) to the left and one to the right.
- Mount the top clips (II) to the wall by installing two 1.5 in. screws (GG) through the top clips to secure the cabinet.

Installation - Surface Mounting Only

3a Preparing the side mirror brackets

- Adhere the side mirror bracket tape (JJ) to the side mirror brackets (KK) as shown. Make sure the bracket (KK) surface is clean.

Unable to assembling it as the mounting bracket is turned upside down not correctly.

Rotary the side mirror mounting bracket of clockwise 180 degree.

The hole is off center, the side mirror mounting brackets only one side can be assembled.

4a Attaching the side mirrors

- Attach four side mirror brackets (KK) to the cabinet (C) sides with screws (AA) and washers (EE). Cover the screw heads with snap caps (DD).
- Remove the paper on the side mirror bracket tape (JJ), and stick the side mirrors (B) to the side mirror brackets (KK).

NOTE: Please make sure the side mirrors are aligning with the cabinet (C) before attaching the side mirrors (B).

Installation - Recess Mounting Only

1b Cut away the drywall

NOTE: For recess mount, do not install side mirrors and brackets.

- Cut away the drywall. The rough opening dimension is 19-1/5 in. x 25-2/5 in. x 3-7/8 in..

2b Frame out the wall cavity

- Mark the opening size of the framing.
- Construct rough opening as illustrated.

3b Mounting the cabinet into a recess

- Insert the cabinet (C) into the rough opening and make sure the cabinet is level and plumb. (Use wood shims as required)
- Secure both sides of the cabinet (C) at the designated mounting hole locations using screws (GG) and washers (EE). Cover the screws (GG) with snap caps (DD).

Installation - Hinge Adjustment

1c Hinge installation

NOTE: Two people may be needed to perform this installation.

- Depth adjustment is made without loosening any screw. The door can be moved in or out by rotating the cam adjuster on the hinge arm.

Side view of the Cabinet

Top view of the hinge

Installation - Hinge Adjustment

2c Hinge installation

NOTE: Two people may be needed to perform this installation.

- Side adjustment of the door is made by using the indicated screw.

Installation - Hinge Adjustment

3c Hinge installation

NOTE: Two people may be needed to perform this installation.

- By loosening the two fixing screws to allow the mounting plate to slide up or down, the door can be adjusted vertically. After retightening the screws, the depth adjustment is done

Front view of the Cabinet

Top view of the hinge

Assembly

1 Installing the shelves

- Install the glass shelves (E) to your desired positions with shelf clips (BB) as illustrated below.

2 Plugging the empty holes

- Use the shelf hole plugs (CC) to seal the empty holes.

3 Adding the bumpers

- Stick the bumpers (FF) at the two corners of the door (D).

Care and Cleaning

- Use a household liquid glass cleaner to keep the mirror and glass surfaces clean.
- Do not use abrasive cleaners containing ammonia.

Información de seguridad

Conserve estas instrucciones de instalación para uso futuro.

ADVERTENCIA: Descarte de forma segura todo el material de empaque. Mantenga las bolsas plásticas y las piezas pequeñas lejos de los niños.

PRECAUCIÓN: Los accesorios están instalados en espuma de poliuretano del extremo superior e inferior. Asegúrese de retirar todos los accesorios del empaque antes de descartarlo.

PRECAUCIÓN: Deben usarse anteojos de seguridad en todo momento.

Garantía

Este producto está garantizado para funcionar durante un mínimo de 1 año a partir de la fecha original de la compra. Si, bajo uso normal y durante el periodo de tiempo completo, su producto deja de funcionar, devuélvalo a su Home Depot local (con su recibo de prueba de compra original) y lo reembolsaremos.

Esta garantía se considera nula si el producto falla debido a mal uso.

Póngase en contacto con Servicio al Cliente llamando al 1-855-HD-GLACIER o visite www.homedepot.com/glacierbay.

Pre-instalación

PLANIFICACIÓN DE LA INSTALACIÓN

- Desempaque su botiquín con cuidado y cierre el desagüe del lavabo para evitar que las piezas caigan en el desagüe.
- Antes de instalar su botiquín, decida si usará un montaje de superficie o un montaje empotrable y determine en qué dirección quiere que abra la puerta.
- Usted no instalará los espejos laterales (B), se puede requerir enmarcado adicional para asegurar el gabinete.

HERRAMIENTAS REQUERIDAS

HERRAJE INCLUIDO

NOTA: No se muestra el herraje en el tamaño real.

PRECAUCIÓN: Las anclas plásticas incluidas (BB) están previstas para ser usadas con aplicaciones de pared sólida solamente (azulejo y concreto). NO LO USE CON APLICACIONES DE PARED SECA U OTRAS APLICACIONES DE PARED HUECA. Consulte la información de advertencia adicional en la página 5 de este manual de instrucción.

Installation - Surface Mounting Only

1a Installing the bottom bracket

WARNING: If installing the cabinet on drywall or other hollow wall applications, the bottom mounting bracket (F) and top clips (II) must be fastened to studs, headers, or other structural wall members. The included plastic wall anchors are intended for use with solid wall applications only (tile or concrete). **DO NOT USE WITH DRYWALL OR OTHER HOLLOW WALL APPLICATIONS.**

- Using a level and measuring tape, ensure the bottom bracket (F) is level and positioned accordingly.
- Mount the bottom bracket (F) to the wall using the 1.5 in. Phillips head screws (GG). See the Warning regarding the fastening of the bracket (F).
- Carefully position the cabinet (C) onto the bottom bracket (F).

NOTE: The height of the bottom bracket (F) should be a minimum of 2 in. above the faucet.

2a Installing the top clips

- Install the top clips (II) by inserting the rounded ends into the rear top slot of the cabinet (C). See the Warning regarding the fastening of top clips (II).
- Slide one top clip (II) to the left and one to the right.
- Mount the top clips (II) to the wall by installing two 1.5 in. screws (GG) through the top clips to secure the cabinet.

Instalación – Montaje sobre superficie solamente

3a Preparación de los soportes del espejo lateral del gabinete

- Adhiera las cintas (JJ) en los soportes del espejo lateral (KK) como se muestra. Asegúrese de que la superficie de los soportes (KK) esté limpia.

No se puede ensamblar ya que el soporte de montaje está invertido de manera no correcta.

Gire el soporte de montaje del espejo lateral hacia la derecha 180 grados.

El agujero está descentrado, los soportes de montaje del espejo lateral solo un lado se puede ensamblar.

4a Instalación de los espejos laterales

- Instale cuatro soportes de espejo lateral (KK) en los lados del gabinete (C) con tornillos (AA) y arandelas (EE), y tapas a presión (DD) para cubrir las cabezas de los tornillos como se ilustra.
- Retire el papel en las cintas (JJ), y adhiera los espejos laterales (B) en los soportes de espejo lateral (KK).

NOTA: Asegúrese de que los espejos laterales están alineando con el gabinete (C) antes de adjuntando los espejos laterales (B).

Instalación – Montaje empotrable solamente

1b Corte la pared seca

NOTA: Para montaje empotrable, no instale los espejos laterales y los soportes.

- Corte la pared seca Las dimensiones de la abertura áspera son 19-1/5 pulg. x 25-2/5 pulg. x 3-7/8 pulg

2b Enmarque la cavidad de la pared

- Marque el tamaño de la abertura del enmarcado.
- Construya la abertura áspera como se ilustra.

3b Montaje del gabinete en un hueco

- Inserte el gabinete (C) en la abertura áspera y asegúrese de que el gabinete esté a nivel y vertical. (Use cuñas de madera como se requiera)
- Asegure ambos lados del gabinete (C) en las ubicaciones del agujero de montaje designado usando tornillos (GG) y arandelas (EE). Cubra las cabezas de los tornillos (GG) con tapas a presión (DD).

Instalación - Ajuste de la bisagra

1c La instalación de bisagra

NOTA: Se necesitan dos personas para realizar esta instalación.

- Se hace el ajuste de profundidad sin aflojar ningún tornillo. La se puede mover hacia adentro y hacia afuera girando el regulador de la leva en el brazo de la bisagra.

Vista lateral del gabinete

Instalación - Ajuste de la bisagra

2c La instalación de bisagra

NOTA: Se necesitan dos personas para realizar esta instalación.

- El ajuste lateral de la puerta se hace usando el tornillo indicado.

Vista superior de la bisagra

Instalación - Ajuste de la bisagra

3c La instalación de bisagra

NOTA: Se necesitan dos personas para realizar esta instalación.

- Aflojando los dos tornillos de fijación para permitir que la placa de montaje deslice hacia arriba o hacia abajo, la puerta se puede ajustar verticalmente. Después de reapretar los tornillos, se hace el ajuste de profundidad.

Vista frontal del gabinete

Vista superior de la bisagra

Ensamblaje

1 Instalación de las repisas

- Instale las repisas de vidrio (E) en las posiciones deseadas con ganchos de repisa (BB) como se ilustra a continuación.

2 Sellado de los agujeros vacíos

- Use los tapones de agujero de repisa (CC) para sellar los agujeros vacíos.

3 Adición de los paragolpes

- Pegue los paragolpes (FF) en las dos esquinas de la puerta (D).

Cuidado y limpieza

- Use un limpiador líquido doméstico para mantener limpios el espejo y la superficie de vidrio.
- No use limpiadores abrasivos que contengan amoníaco.
