Note: Before Assembly, please be sure to work on a soft flat surface to avoid any damage to the finish.

## MAXIMUM RECOMMENDED WEIGHT LOADS

This unit is intended for use only with the maximum weights indicated. Use with products heavier than the maximum weights indicated may result in instability causing possible injury.

# WARNING

Serious or fatal crushing injuries can occur from furniture tip-over. To help prevent tip-over:

- Place heaviest items in the lowest drawer, shelf.
- Do not set TVs or other heaviest objects on the top of this product.
- Never open more than one drawer at a time and never allow children to climb or hang on drawers, doors, or shelves.

Use of tip-over restraints may only reduce, but not eliminate, the risk of tip-over.

This is a permanent label. Do not attempt to remove!

## **Important**

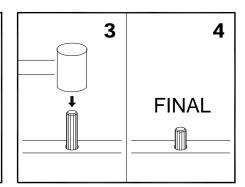

Before you begin: Open, identify and count all parts prior to assembly. Lay out parts on a flat and non-abrasive surface. You will need the parts identified on page 3 and 4 of this instruction manual.

NOTE: IT IS VERY IMPORTANT TO USE GLUE WITH DOWELS. EXCESS GLUE CAN BE WIPED OFF WITH DAMP CLOTH.

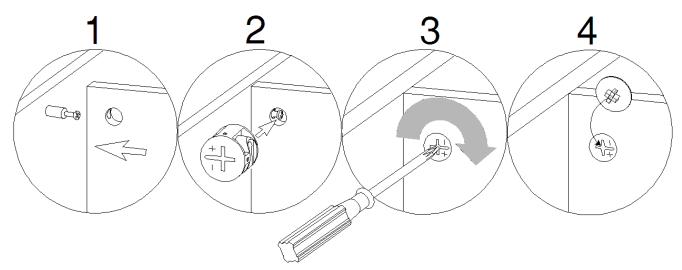

Insert Dowel at least half way by tapping lightly with a rubber mallet, IF NECESSARY.

# CAM LOCK SYSTEM OPERATION

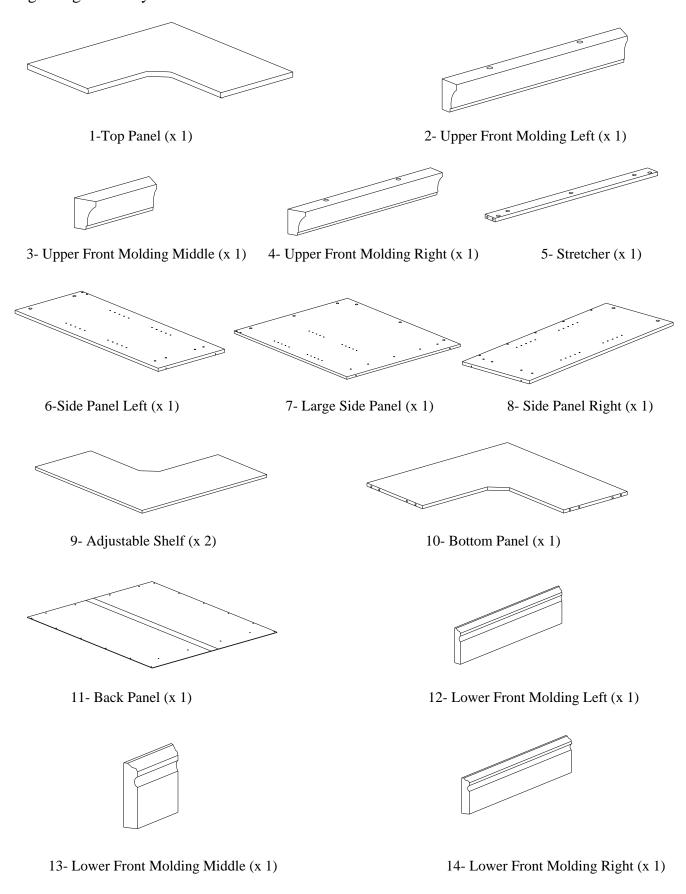

# HOW THE KNOCK DOWN (KD) ASSEMBLY SYSTEM WORKS

- 1. Screw the Cam Bolt into the threaded inserts on the panel. Connect both panels together; making sure Cam Bolt goes into the pre-drilled hole on the end of panel for Cam Lock.
- 2. Insert the Cam Lock into the pre-drilled large hole on the panel. Make sure the arrow on the face of Cam Lock faces out and points towards Cam Bolt.
- 3. Take a Phillips screwdriver and rotate the Cam Lock clockwise to lock the Cam Bolt in place.
- 4. Plug the Cam Lock Cover into the cross slot of the Cam Lock to conceal the Cam.

You are now ready to assemble the KD unit.

#### NOTE: If you buy more than one unit, the stacking configuration can be available.

- 16. This cabinet featured stacking configuration. Repeat the same procedure to assemble the other corner unit. Place one unit on the top of the other base unit making sure it is centered properly and back edges are even. Using the Metal Bracket (F) as a template, mark the mounting hole locations at the back side of the Base Top Panel and Hutch Side Panels, as shown in the illustration. With an electric drill and 1/16" drill bit (not included), carefully drill into the marked location about 1/2" deep. Make sure that you will not crack the side edges.
- 17. To secure the units in place, attach the Metal Brackets (F) over the drilled holes using four M4x16 mm Pan Head Screw (G) per Metal Bracket. Tightly fasten all the screws with a Phillips screwdriver.

NOTE: The Metal Brackets provide an important safeguard against accidents. Make sure you attach the provided Metal Brackets to the units with the screws to prevent the units from falling over.

## TIPPING RESTRAINT HARDWARE

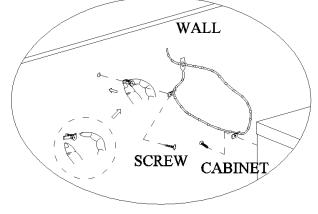

We have included one Tipping Restraint Hardware bag for this unit. You must install this hardware to prevent accidents or injuries from falling unit.

When properly installed, this restraint can provide protection against the unexpected tipping of the storage rack due to small tremors, bumps or climbing. We strongly recommended mounting this hardware to a wall stud and your unit.

Please carefully read the instructions printed on the bag.

Note: You must install the Tipping Restraint Hardware with the unit in use to prevent any accidents or

damage to the unit.

Tools Required: Phillips Screwdriver, Mallet, Power Drill, and 3/8" Drill Bit.

### Care and Maintenance

- Use a soft, clean cloth that will not scratch the surface when dusting.
- Use of furniture polishes is not necessary. Should you choose to use polishes, test in an inconspicuous area first.
- Using solvents of any kind on your furniture may damage the finish.
- Never use water to clean your furniture as it may cause damage to the finish.
- Always use coasters under beverage glasses and flowerpots.
- Liquid spills should be removed immediately. Using a soft clean cloth, blot the spill gently. Avoid rubbing.
- Always use protective pads under hot dishes and plates. Heat can cause chemical changes that may create spotting within the furniture finish.
- Stains or marks from crayons or ink markers will be difficult to remove.
- In the event that your furniture is stained or otherwise damaged during use, we recommend that you call a professional to repair your furniture.
- Check bolts/screws periodically and tighten them if necessary.

### Further advice about wood furniture care

It is best to keep your furniture in a climate controlled environment. Extreme temperature and humidity changes can cause fading, warping, shrinking and splitting of wood. It is advised to keep furniture away from direct sunlight as may damage the finish.

Proper care and cleaning at home will extend the life of your purchase. Follow the important and helpful tips that will enhance your furniture as it ages.

We hope you enjoy your purchase for many years. Thank you for your purchase.
