

## SAVES SPACE - ADJUSTABLE HEIGHT

The leader in fiberglass poles brings you a high quality, lightweight telescoping pole that saves space and adjusts to fit your job.

- Double locks (internal lock and external cap) ensure poles will not collapse. Count on a secure connection at any length for maximum versatility and safety.
- Lightweight, durable fiberglass will not crimp under high stress like aluminum poles.

*For safety, Jameson does not recommend attaching additional poles or Tru Shot to Telescoping Poles.*

## TELESCOPING POLE WITH FEMALE FERRULE

Ferrule allows the use of Pruner or Pole Saw with the same pole

### Double Lock™ System

Extend pole sections to desired length, twist top pole to engage internal lock then tighten outer cap lock to secure.
