ABOUT STAINLESS STEEL SINKS

We offer a variety of bowl shapes, sizes, and installation methods. Each sink is complete with a beautiful brushed satin finish that helps conceal small scratches that may occur over the lifetime of the sink. Our stainless steel sinks are made from high quality 14-, 16-, or 18- gauge steel in the 304 series, which guarantees they will not rust or stain. Most models are made of one piece construction that ensures sturdiness and durability. Each sink is fully insulated to help prevent dripping and condensation buildup under the sink, and also has a sound-dampening pad to minimize noise. All of our stainless steel sinks are covered by a limited lifetime warranty.
