

SAMSGAZEBOS™ Garden Seat

Installation Guide & Use and Care

Thank you for purchasing **SamsGazebos™** products.

There are a few steps you need to take in order to use your garden bench for many years of enjoyment.

1. Finish it to your liking. A solid stain is highly recommended for easy maintenance.
2. Set it on a level surface, preferably against a wall.
3. Avoid placing it on dirt. Make a cement pad (4 ft. x 2 ft.) or lay bricks.
4. Stake the both sides of the bench legs or bolt them down to your patio or deck.
5. Fasten the top arbor to the wall if it is a windy area.
6. Adjust your sprinklers if necessary.

Please contact our customer service for any questions.
