Lets Get Started

1. Insert 2 AA batteries into your clock.
2. Configure basic settings.

Important:

The clock will look for the Atomic time signal for 7 minutes when batteries are first installed. Buttons will not function during the Atomic time signal search.

Options:

- Press the WWVB SEARCH button once to stop the Atomic time signal search.
- Manually set the time, date, and time zone.
- The clock will search for the Atomic time signal again after midnight.
- Press WWVB SEARCH button anytime, to start an Atomic signal search.
- For information about WWVB visit: <http://bit.ly/AtomicTime>

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device must not be co-located or operating in conjunction with any other antenna or transmitter.

Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Caution!

The manufacturer is not responsible for any radio or TV interference caused by unauthorized changes or modifications to this equipment. Such changes or modifications could void the user authority to operate the equipment.
