READ INSTRUCTIONS ALL THE WAY THROUGH
PRIOR TO ASSEMBLY.

Assembly Time: 5 Minutes.

UNPACK THE SOLAR LED LIGHT STRING

The following parts should be included in the box: LED light string, (1) solar panel, (1) tube and (1) stake.

PANEL ASSEMBLY AND INSTALLATION

1.) Join tube and stake together as shown below.

2.) Attach stake assembly to back of the solar panel.

3.) Hang the light string to the position as you desired.

4.) Insert the solar panel into the ground in a sunny area.

5.) Slide the switch to "OFF" position for charging, once charged for around 6 hours, slide the switch to "ON" position, your new solar LED light string is ready for use.

Note: The service life of battery is 500 days.

ASSEMBLY INSTRUCTIONS

READ AND SAVE THESE INSTRUCTIONS

IF NECESSARY, PLEASE SEE THE FOLLOWING STEPS TO REPLACE THE RECHARGEABLE BATTERY.

1.) Detach the stake assembly from solar panel.

2.) Remove (4) screws from back of solar panel with screwdriver (not included).

3.) Remove the old battery and replace with a new rechargeable battery (400MAH, 3.2V, LI-ION-14500), replace the cover and secure with (4) screws.

4.) Attach stake assembly to back of the solar panel.

TROUBLE SHOOTING

1.) If your LED light string is not functioning properly or losing power mid-cycle, then ensure the solar panel is positioned in direct sunlight. Your solar panel will need to collect about 6 hours of sunlight to function throughout a full cycle.

2.) Although the battery inside your seriously solar panel is designed for maximum longevity, Overtime performance will drop - replacing the battery will correct this issue.

important notes:

1.) The LED light string will turn on automatically every night if the switch is in "on" position .

2.) Although there may be some initial charge in battery, we recommend fully charging it before first use. Turn off the led light and leave the solar panel in good sunlight for 6 hours to ensure the battery is fully charged.

3.) To maximize solar energy intake, the solar panel may be cleaned periodically with a soft rag and water, do not use chemical solvents.
