HOMASOTE[®]

Sensible. Sound. Solution.

440 SoundBarrier[®]

The *All-Purpose*
Fiber Board That
Reduces Noise

440 SoundBarrier provides:

- SUPERIOR SOUND CONTROL
- INSTALL UNDER DRYWALL
- INSTALL UNDER ALL FINISHED FLOORS
- PERFECT FOR HOME THEATERS

Ideal for renovations because it requires access to only one side of the wall.

Install over existing drywall with an additional layer of drywall on top. “440 Sandwich” creates optimal sound control in existing walls and ceilings.

Works with any finish floor system.

Protection Board

440 SoundBarrier can be installed on:

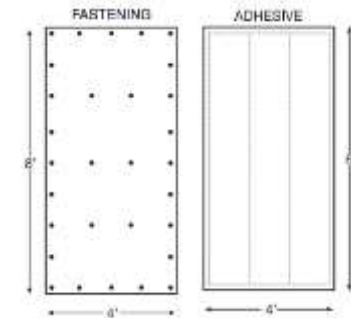

- CONCRETE
- HARD SURFACE FINISH FLOORS

440 SoundBarrier helps to absorb shock under heavily weighted impacts. It protects floors, walls, and other work surfaces during renovation.

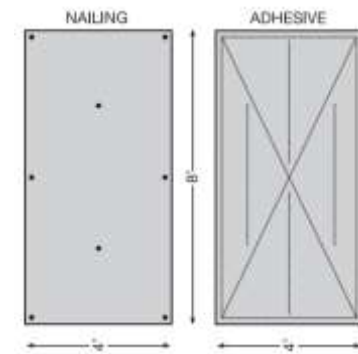

440 SoundBarrier is also reusable.

Installation Quick Tips
