

*Van Zyverden's*  
**CANNAS CLEOPATRA**

As flamboyant as their tropical American ancestry, cannas are among the most colorful summer bulbs with ruffled spikes tapering to refined buds, boasting immense, paddle shaped leaves. Their great reedy canes and palmy foliage make for large, magnificent plants, yielding blooms all summer long for long lasting curb appeal. They are deer resistant and appear most dramatic when grouped in masses. These are fast growers with large flowers.

*Exotic tropical foliage  
and color*

*Good in garden beds  
or larger containers*

*Easy to grow  
and low maintenance*

*About This Variety:* Canna Cleopatra is known for its yellow, red, and spotted flowers, while some are one color or the other, some flowers have a combination of all the colors. The flowers are large and eye-catching which stand out against the lance shaped leaves. The leaves can be green, dark brown or a combination of both. Its hybrid nature causes these spectacular combinations of color. No two plants or flowers will be alike, surprising gardeners each season.

*Growing Instructions:* Where not hardy, plant outdoors in early summer 2" deep, setting the rhizome in the hole, 'eyes' (shoots) up. Cannas do best with a good supply of water.

*Care Tip:* As flowers fade, deadhead to promote continued flowering. They like moist conditions.

*Exposure:* Full sun to partial shade

*Height:* Grows 28-32" tall

*Spacing:* Plant 12" apart, 2-4" deep

*Hardy in:* USDA zones 3-9

Guaranteed to grow 1 year from purchase if directions are followed. Any concerns related to quality and/or counts feel free to contact us.
