

5 LITER LPG GAS PORTABLE TANKLESS WATER HEATER

CAMPER SERIES AGL-5

- The **iHeat AGL-5** is a portable liquid propane fired water heater capable of delivering 1 to 1.4 gallons of hot water almost anywhere.
- The AGL-5 is a small work horse, people use similar units to heat the water in their homes, safely, and reliably.
- Gas is supplied from a standard 20 pound propane cylinder (A shower nozzle with on/off switch and multiple spray patterns is included).
- Ignition is automatic and powered by 2"D"cell batteries (not included).
- Additional safety feature of an automatic 20 minute shutoff timer that is reset each time the operation stops or the shower head is turned off and back on.
