Willow Circular Cage Care and Setup

Note: This is only our suggested method of setting up our Willow Funnel Trellises. You may do it in any way you want. This is just a suggestion to help.

Our Willow Funnel Trellises come fully intact with no assembly required. They are easily expandable and retractable to allow for storage convenience and portability. Funnels provide basic protection against animals or as a separator. They can also be used as trellising for your plants. Can be taken in during the winter to increase the life span of the product.

Thank you for your business!
