

## P6200 Series Fiberglass Platform Step Ladders

The P6200 series platform ladders have a duty rating of 300 pounds and feature a safety guard rail to encourage proper use. Back-up plates reinforce all top connectors and the large platform provides a secure and comfortable work area. The slip-resistant TRACTION-TRED® steps are double riveted and knee braced. A full set of rear horizontals are spaced one foot apart. The EDGE® molded brace and foot pad combination provides bracing strength and increased protection from damage. Fiberglass rails are non-conductive for working near electricity.

### Features

- 4 rivets attach top to each front rail
- Back-up plates to reinforce top connectors
- Designed for one person jobs
- Every rivet backed up by metal plate or washer to protect fiberglass
