

SPLASHBACK TILE

Specification Sheet

Noble Pearl & Marble Mosaic Series

Each piece of the Noble Pearl & Marble Mosaic Series fits into the next like a perfect puzzle. Its stunning design and unique pattern of honeycomb will bring warmth and a natural ambience to your home. The mesh backing not only simplifies installation, it also allows the tiles to be separated which adds to their design flexibility. Natural stones are products of nature therefore variations in color, pattern, texture and veining will occur. It is not recommended to be installed in a pool or anywhere the tile will be submerged in water. Due to the nature of glass, a slight amount of variation in color and size can occur from lot to lot.
