PRODUCT:

DIRECTIONS:

- 1 — Surface must be free of grease, oil and dirt
- 2 — Unscrew nozzle and cut off tip (leaving thread intact), replace nozzle and cut to desired length
- 3 — Insert cartridge into a standard size caulking gun and squeeze trigger
- 4 — Apply liberally with firm pressure continuously for 10-30 seconds for instant grab to take hold
- 5 — Allow 24-48 hours for curing
