Won't damage walls - when used properly!

Gentle pressure is all that's required for prodigious paper perforation!

paredes con agua fresca & secarse antes de pintar.
pared. Quite el adhesivo excesivo con WP Chomp Removedor de Papel Tapiz y limpia con una esponja limpia. Lava los
3) **HASPAR** el papel tapiz con la Herramienta Raspador para Papel Tapiz de WP Chomp, 'bajando de arriba hacia abajo la
2) **APLIQUE** WP Chomp Removedor de Papel Tapiz Mejor del Mundo y déjalo por 1-5 minutos.
de WP Chomp, usando una presión ligera. Más perforaciones mejoran la penetración removedor. Perforar completamente.

INSTRUCCIONES PARA QUITAR PAPEL TAPIZ:

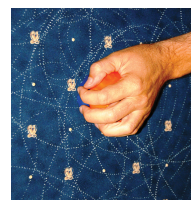

- 1.) Pele aggado la capa superior decorativa, o **PERFORAR** papel tapiz con la Herramienta de Perforación para Papel Tapiz de WP Chomp, usando una presión ligera. Más perforaciones mejoran la penetración removedor. Perforar completamente.
- 2.) **SPRAY** WP Chomp! World's Best Wallpaper Stripper to perforated wallpaper, applying from the top down. Allow WP Chomp! to dwell for 1-5 minutes.
- 3.) **SCRAP** wallpaper from the wall surface using the WP Chomp Wallpaper Scoring Tool, starting at the top, and working down the wall. Apply gentle forward pressure to the scoring tool (let the tool do the work - excessive pressure will gouge down the wall). To remove remaining wallpaper paste, reapply WP Chomp Wallpaper Stripper, and sponge clean, rinsing with clean water. Allow walls to dry completely before painting.
