**Unpack and identify the following components:**

Tools that are needed but not supplied with the Outdoor post light pole are: a screw driver, a wrench and an electrical drill that will be used to anchor the lamp base to the ground.

**NOTE:** The following steps are for reference only. Consult your local hardware store for the best installation method for your particular surface.

### Installation Instructions

1. Mark and drill three holes, into a solid surface no smaller than the fastening screws. The holes shall be lined up with the holes of the lamp base **(D)**.
2. Put the fastening screws (included) into the drilled holes with their threaded ends facing up **(Fig. 2)**.
3. Place pole base onto fastening screws and secure base with the nuts using a wrench **(Fig. 3)**.
4. Make sure the pole base **(D)** is stable before installing Part **(E)**.
5. Place part **(E)** on top of part **(D)** and tighten with the provided screws using a wrench.
6. Screw part **(G)** onto part **(E)** and part **(F)** onto part **(G)**.
